'New Look'—For U.S. or NATO? Pearson Questions Dulles Policy

PRINCESS MARGARET SMOKING CHEROOTS, SAYS COLUMNIST

LONDON (Reuters)—A London newspaper columnist claimed Sunday that Princess Margaret smokes the occasional cheroot these days.

The princess, long a cigarette smoker, smokes the baby cigars only in private, he said.

The columnist, Ephraim Hardcastle, writing in the Sunday Express, predicted the princess would set a new vogue in London society.

"I saw two smart young ladies elegantly smoking cheroots at parties last week," he wrote.

Ike Will Propose Tariff Reductions

Announcement Comes on Eve of Conference
Between Canadian and U.S. Ministers

WASHINGTON (CP)—Despite opposition in some Republican quarters, President Eisenhower has decided on a program of tariff cuts and his proposals will be placed before Congress within the next two weeks, diplomatic officials disclosed today.

At the same time he will ask Congress to extend the U.S. Reciprocal Trade Agreements Act, which expires next June, for another three years, thus paving the way for a possible fourth postwar round of tariff bargaining early next year.

Parts of the still secret program will be unveiled for a confidential preview at Tuesday's meeting of senior Canadian and American cabinet ministers.

The eight ministers, including U.S. State Secretary Dulles and Canada's External Affairs Minister Pearson, will meet at the first formal conference of the Canada-U.S. economic and trade committee.

Other members will be Agriculture Minister Gardiner and Finance Minister Abbott of Canada and U.S. Treasury Secretary Humphrey, Commerce Secretary Weeks and Agriculture Secretary Benson.

ASK COMMENT

The big issues at the moment are American tariffs and U.S. programs to dispose of a portion of huge stockpiles of food which threaten to clog world markets and reduce established prices.

Informants said Canadian ministers will be asked at the

Safecrackers Strike Again In Vancouver

VANCOUVER (CP)—Safecrackers kept up their hard-hitting tempo here during the week-end by hammering open two more safes and trying to pry their way into two more.

Police statistics last week showed that safecrackings in the city are already running 400 per cent ahead of the 1953 pace.

Victims of the week-end raids were West Coast Hardware Co., where loot amounted to about \$50; Vancouver Equipment Corp., petty cash; and New Veterans' Branch, Canadian Legion, a failure for yeggs; and Overwaitea Ltd., where a burglar alarm chased them away.

Power Board Members Await Successors

Bennett Seeks
Best 'Men for Jobs'

By TONY DICKASON

The three members of B.C. Power Commission were at work today despite the fact Premier Bennett announced Friday in the Legislature their resignations were accepted following a Royal Commission report charging the board with negligence.

It was not simply a question of submitting resignations and walking out, a commission spokesman said. Members likely will stay on until the government makes new appointments.

Resignations of Samuel R. Weston, chairman, and commissioners Gen. W. W. Foster and Forrest L. Shaw, together with Alfred William Lash, chief engineer, were received by the government after the Royal Commission negligence charge.

When Mr. Weston was appointed in 1945 his salary was \$10,000 and commissioners received \$8,000 yearly. Salary increases which may have followed since have not been revealed.

Premier Bennett has said the government is seeking "the very best men available" for the jobs, and early appointments are expected.

He did not indicate whether the positions would be filled by B.C. men or if the government is also looking elsewhere in Canada for replacements.

It is known that top-flight engineers are hard to find. With industry booming throughout Canada plus recent huge hydro developments, particularly in Ontario and Quebec, most of the men with technical know-how are already employed.

With the exception of Newfoundland and Prince Edward Island, every province has some type of power commission operating. Oldest of them all is the Ontario Hydro Electric Power Commission, established in 1906, which serves close to 1,000 municipalities.

"It is essential that we work together in any new defense policy—as we have already been working together—if the great coalition which we have formed for peace is not to be replaced by an entrenched continentalism."

This narrow defense concept, under which presumably the U.S. would choose its own time, place and means of retaliating against a Red attack, "makes no great appeal to your northern neighbor as the best way to prevent war or defeat aggression," Pearson said.

BULWARK AGAINST REDS

He made his appeal for continued support of a strong, unified North-Atlantic community as the basic bulwark against communism in referring to the Jan. 12 defense speech of U.S. State Secretary Dulles.

Dulles' address—described by Pearson as "one which may turn out to be one of the most important of our times"—outlined a new U.S. defense policy based on a Washington decision "to depend principally upon a great capacity to retaliate, instantly by means, and at places of our own choosing."

"The key words in this sentence are 'instantly,' 'means' and 'our,'" Pearson said.

"From our point of view, it is important that the 'our' in the sentence I have quoted, means those who have agreed together, particularly in NATO, to work together and by collective action to prevent war or, if that should fail, to win."

EXPLOSIVE EFFECT

The new American defense policy, Pearson said, makes diplomacy not less but even more important, especially when nations contemplate the "means, including atomic," that may have to be used, the occasions when they should be used, and their effect—explosive possibly in more respects than one. As the Canadian minister saw it, diplomacy consists of two things—persistent and patient effort to settle differences "with those whom we rightly fear"; and even more important, the search for agreement between friends on policies, tactics and timing, "so that 'our choosing' will mean an agreed collective decision, without prejudicing speedy and effective action in an emergency."

PILOT USES PERISCOPE

Plane Zooms Straight Up, Comes Down on Its Tail

WASHINGTON (AP)—The United States Navy is giving the public a guarded look at two new airplanes that take off vertically and back down, tail first, for landings.

Navy sources said photographs, but little information as to capability and construction, will be released Wednesday.

The planes, known as "VTO Fighters" for their vertical take off characteristics, have been built by Consolidated

Vultee Aircraft Company, Convair, San Diego, and Lockheed Aircraft Co., Burbank, Calif.

Persons who have had an advance look at the Convair model, the FYL reported that it stands entirely vertical for take off and landing.

The pilot sits with his back to the ground, feet upward, at the moment of take-off or landing, and apparently has a periscope or a rear-view mirror arrangement to watch the field.

IWA Will Not Seek General Wage Hike

West Coast Woodworkers to Negotiate Fringe
Benefits in New Contract Bargaining April 15

VANCOUVER (BUP)—International Woodworkers' Union president Joe Morris announced today the union will by-pass wage increase demands when bargaining for 1954 contract renewals with west coast lumber operators April 15.

The decision to withhold pay demands came following a week-end conference here by 90 delegates of the 12 British Columbia IWA locals.

In bargaining talks with Forest Industrial Relations and independent operators the IWA will present eight proposals and will conform to the contract conditions now accepted generally in major B.C. industries.

PROPOSALS

The eight proposals: Payment of wages on six statutory holidays in addition to the present three.

Full union security with close co-operation between management and labor.

A provision to enable the union to negotiate an agreed-upon procedure to cover workers now on piece work rates. Chief Justice Sloan ruled that negotiating rights for wage payments of these workers were not provided for under terms of the existing agreement.

Retention of seniority rights during any layoff period following a temporary reduction of the working force.

Payment of wages at the rate of time and one-half on Sundays for watchmen, boatmen and plant guards.

A job analysis program for the industry to be made jointly by management and labor.

Employer-paid medical services for all workers.

Assumption by the operators of the cost of transportation from the point of hiring to the job.

Red Cross Donations

Total 37% of Quota

A noon total of \$27,202 was announced by Red Cross campaign offices today. The figure represents over 37 per cent of the \$72,000 quota which 800 volunteer canvassers are striving to collect by the end of the month. Officials are optimistic of success.

One major question was: Should the investigation be en-executive.

WINNIPEG MP CANDIDATE FOR TORY PRESIDENCY

OTTAWA (CP)—Gordon Churchill, 53, of Winnipeg, announced today he will stand as a candidate for the presidency of the Progressive Conservative Association of Canada.

Mr. Churchill, a PC Member of Parliament for Winnipeg South-Centre, claimed the support of a majority of the party's 40 MPs.

His announcement assures a contest for the presidency, which will be decided Tuesday. George Hees, 43-year-old MP for Toronto Broadview, already has announced he will stand.

Mr. Churchill announced his candidature in a letter to George Nowlan of Wolfville, N.S., who is retiring as president after four years in office. Nowlan is MP for Digby-Annapolis-Kings.

French Also Hard Hit In War's Biggest Battle

By LARRY ALLEN

HANOI, Indo-China (AP)—Communist-led Vietminh troops drove toward the heart of the French Union fortress of Dien Bien Phu tonight after seizing a strong point to the north. They lost 1,500 killed in furious fighting.

The savage rebel onslaught gained ground despite French reinforcements dropped by parachute to help the hard-hit defenders of the last French Union outpost in northwest Indo-China. Dien Bien Phu is 175 miles from Hanoi.

The Vietminh attack on the besieged fortress began Saturday night but the defenders held them off throughout Sunday. But today the rebels threw in thousands more troops.

The rebels bombarded the dust bowl fortress with artillery shells before they launched their new series of attack.

As the violent battle raged out its second day, the French high command in Saigon announced that a battalion of French and Viet Namese paratroopers had jumped onto the

Dien Bien Phu airstrip to reinforce the French union garrison. Other reinforcements were airlifted from Hanoi.

The French high command in Saigon said the French union forces had the "situation well in hand" and were holding solidly against the "very violent" rebel attack.

A French spokesman predicted the fighting would last several days.

"A three-hour cease-fire interrupted the fighting Sunday morning while both rebels and French carried their dead and wounded from the battlefield. The French claimed at least 1,000 rebels killed in the initial assault Saturday night and early Sunday, and admitted their own losses were "appreciable."

The fighting resumed at noon Sunday with a heavy rebel bombardment of the strongly fortified, French-held plain in the heart of the Thai tribal country.

Then, as they had on Saturday, wave on wave of screaming, bugle-blowing rebel troops surged forward against the bristling barbed wire barricades around the French positions.

French mobile artillery, tanks, mortars and heavy machine-gun and rifle fire cut down the Vietminh by the scores. Fighters and bombers roared overhead, moving a wide swath in the charging ranks.

The legions of Communist leader Ho Chi Minh appeared making an all-out effort to give the French a major setback before the Big Four and Communist China meet in Geneva, fighting.

The screaming infantry fired rifles, pistols, sub-machine guns and hurled bamboo spears as they closed in for hand-to-hand

fighting.

SWITZERLAND, April 26 to seek a path to peace in Indo-China.

The French for their part hoped to decimate the ranks of the best rebel divisions and perhaps thus break the back of the Vietminh forces.

The fighting was described as the most savage yet in the seven-year-old Indo-China war. The Vietminh encircled the fortress, entrenching from 36,000 to 41,000 troops in the surrounding hills. More than 100,000 coolies packed in supplies mostly from Communist China over mountain trails.

Late Saturday afternoon the rebels lunged out of the hills by the thousands, cascading against the acres of barbed-wire barricades ringing Dien Bien Phu.

Roofless Shell Left After Colwood Fire

A residence used by Chinese workers on Dewdney Farm, Happy Valley, was razed by fire early Sunday before Colwood Volunteer Firemen could save it. The firemen had a three-mile run then were faced with the need to pump water from a well. The house does not

lie within any area protected by a fire department but Colwood men made the frantic attempt even though it was out of their territory. A neighboring cookhouse was saved through their effort. (Times Photo by Strickland.)

RCMP Lists Canada's Most Wanted Criminals

Heading the RCMP list of the most wanted criminals in Canada is Donald W. Henderson, of Calgary, Alta. He is sought for the slaying of Yvonne Levesque, his sweet heart, in 1949.

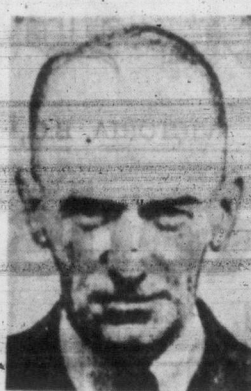

Michel Sisco, alias Antoine d'Agostine, is sought on a narcotics and conspiracy charge. He was formerly a Montreal restaurant operator.

John Mallock, Winnipeg salesman, is wanted in Vancouver on narcotics and conspiracy charges. His brother was recently sentenced to 28 years.

A murder charge awaits William Adams, whose father's body was found buried in the basement of a small shoe repair store in St. Catharines in 1949.

William P. Ryan, 64-year-old international swindler of England and New Zealand, is wanted in connection with a horse-race swindle.

JUST for the RECORD

WHEEEEE!—Dallas, Tex., police said today a 30-year-old man who had been inebriated a bit tried to walk out of his second-story hotel room by way of a telephone cable suspended 20 feet above the street. They took him to a hospital with a broken leg, cuts and bruises.

CONSCIENCE—Las Vegas, Nev. theatre received a \$15 cheque from a Los Angeles woman who said she attended the movies at juvenile prices here long after she passed the 12-year age limit.

"I don't know exactly how much I owe you," her letter said, "but I think this will more than cover the amount. Please forgive me."

STEADY!—In Boston officials of the New England school boy basketball tournament turned thumbs down on a request by the Nashua, N.H., high school team to bring its mascot to Boston Garden next week. The mascot is a live panther.

SLANDER—The internal revenue service in Washington returned an unsigned joint income tax return, requesting that the husband sign it and that he "also have your spouse sign it." The return came back directly with the note: "Enclosed find signed return. And don't call my wife a spouse."

AMEN!—In Chicago Ernest J. Sauber, district director of the internal revenue service, said a taxpayer sent him a cheque for \$16.60 and this letter: "Dear sir: I am returning a cheque for \$16.60 for my income tax return of 1952. The Lord has convicted me of overstating my (charitable) contributions by \$5."

\$58.2 MILLION IN PAYMENTS ON 1952-53 CROP

WINNIPEG (CP)—Mailing of final payment cheques on 1952-53 pool wheat began today from the Canadian wheat board office here. Board secretary C. B. Davidson said the amount totalled \$58,282,438, with Manitoba farmers sharing \$5,300,000.

The final payment is being made on the basis of board records, making it unnecessary for producers to forward their 1952-53 certificates to the board.

Montagu Pleads Not Guilty to Homosexual Charge

WINCHESTER, Eng. (Reuters)—Lord Montagu of Baginbun, 27-year-old bachelor peer, and two other men pleaded not guilty here today at the opening of their trial on homosexual charges.

Accused with Montagu were his second cousin, Michael Pitt-Rivers, 37, and Peter Wildeblood, 30, a London newspaper man.

The three men face a total of 18 charges.

Some of the charges concern two young airmen, Cpl. Edward McNally, 25, and AC John Reynolds, 21, who have stated in preliminary hearings that they have been homosexual for years.

FINNS, SOVIET NEGOTIATE HELSINKI (Reuters)—A Finnish delegation headed by Trade Minister Teuva Aura has gone to Moscow to negotiate a new five-year trade pact with Russia. Russia now is Finland's principal trading partner.

St. Laurent Leaves Hawaii En Route Home

HONOLULU (CP)—Prime Minister St. Laurent leaves here today for San Francisco on his way home to Ottawa after his six-week goodwill global tour.

He and his party are due at Ottawa's Rockliffe airport Wednesday evening.

Sunday, like almost any other tourist here, the prime minister spent the day resting, reading and watching the bathers on the beaches.

He attended mass at St. Augustine Catholic Church and then returned to his suite in the Royal Hawaiian Hotel.

He spent part of the day on the terrace watching swimmers on Waikiki Beach.

Later he bought two magazines in the hotel lobby and returned to his room to read.

French Reds Take Major Setback in Important Vote

PARIS (UP)—The French Communist party and opponents of the European Army Treaty suffered a major setback in France's most important parliamentary by-election in three years, returns showed today.

Mme. Germaine Peyrolles, a soft-spoken wartime heroine and member of the Catholic Popular Republican party, polled a majority of 12,437 votes over Andre Stille, top-flight Communist and editor of the Communist newspaper L'Humanite.

The campaign, in the vital Seine-Et-Oise department which surrounds Paris and includes Supreme Allied Headquarters, was fought chiefly on the issues of the European army and German rearmament. The results were regarded as a major defeat for the Communists since the department has been a Red stronghold.

FRENCH JUSTICE SLOW BUT SURE?

Marie Besnard Faces Trial Over Poisoning of Twelve

BY ROBERT MARX

BORDEAUX, France (Reuters)—A middle-aged widow who has constantly worn black for 11 years as one death followed another in her home goes on trial today accused of poisoning a dozen persons.

Almost five years have passed since Mrs. Marie Besnard, 37, was first arrested after a 1949 inquiry revealed traces of arsenic in the bodies of her alleged victims, who included her first and second husbands. All the victims, except her second husband, were old and sick.

The big-bodied, squeaky-voiced woman was first brought to trial in 1952, and press and public opinion convicted her beforehand as the Lucrezia Borgia of the atomic age.

But the defense tore apart the case against Mrs. Besnard by showing that test tubes containing the remains of the alleged victims had been mixed-up and mislabeled.

The judge finally suspended the hearings, declaring, "I find not one solid fact in the whole prosecution dossier... a pack of gossip."

Since then a new panel of experts has been at work, using varied techniques which have multiplied the discrepancies over how much arsenic there was in the remains of Mrs. Besnard's long-dead relatives.

While French justice has crept slowly forward, the widow has remained in jail. Prison sources said she has grown docile and religiously devout, invoking the aid of her 12 "dear departed ones."

CUMBERBIRCH GIVES CLASSIC LECTURE

Emphasize Moral Consciousness Veteran Tells Today's Teachers

The tripartite nature of man—mind, body, and soul—must be basic in a teacher's understanding of his job, Hubert Cumberbirch told members of the Greater Victoria Teachers Association Saturday night at the Chez Marcel.

Relating the task of the teacher to fundamentals as found in Holy Writ, the retired Victoria High School teacher delivered a lecture which one teacher remarked "gave old platitudes a shining new functional quality."

Colored with the wit of a Yorkshireman, and studded with quotations from literary greats, the talk brought a resounding ovation from his listeners.

Mr. Cumberbirch listed the requisites of a scholar as humility, diligence, meditation, a love of truth, and—above all—the element of sympathetic understanding that springs from the spirit, an element vitally necessary if we are to escape educating "a nation of clever devils."

For this last attribute the speaker stressed the moral values and the moral consciousness of an educated person as of supreme importance.

Comparative ease of modern-day living has produced a lot of "unthinking people," Mr. Cumberbirch said.

He decried a tendency to what he called "systematic laziness."

He noted the number of social graces dying out, and listed among these conversation, letter writing and meditation. That such arts should be allowed to fall in disuse was, he felt, one of the unpardonable sins of the modern system of education.

"Learn—or get out!" was the speaker's recommendation for a motto for all high schools. His strictures on "a small group of mentally lazy students in every class, which infects others on the fringe of the group" drew applause from his audience.

The humility of spirit engendered by the knowledge that man "understands nothing fully" was advocated for both teacher and student, and Mr. Cumberbirch concluded with quotations from Paul's Epistle to the Corinthians "... now we see through a glass darkly, but then, face to face", and "... If there be any virtue, think on these things".

24 of 33 Killed In Singapore Air Crash Are Buried

SINGAPORE (AP)—The bodies of 24 of 33 persons who died in the flaming crash of a British Constellation here Saturday were buried side by side today in Singapore's Bidadari cemetery.

Bodies of the lone Canadian victim, Alexander James Wood, 73, of Montreal, and the five Indian and Indonesians killed in the crash also were to be cremated.

Air officials flew from London and Sydney, Australia, to investigate the crash.

Comparative ease of modern-day living has produced a lot of "unthinking people," Mr. Cumberbirch said.

He decried a tendency to what he called "systematic laziness."

He noted the number of social graces dying out, and listed among these conversation, letter writing and meditation.

That such arts should be allowed to fall in disuse was, he felt, one of the unpardonable sins of the modern system of education.

"Learn—or get out!" was the speaker's recommendation for a motto for all high schools. His strictures on "a small group of mentally lazy students in every class, which infects others on the fringe of the group" drew applause from his audience.

The humility of spirit engendered by the knowledge that man "understands nothing fully" was advocated for both teacher and student, and Mr. Cumberbirch concluded with quotations from Paul's Epistle to the Corinthians "... now we see through a glass darkly, but then, face to face", and "... If there be any virtue, think on these things".

Top Diplomats Meet to Align Geneva Plans

LONDON (Reuters)—Senior diplomats from France, Belgium, Netherlands, Luxembourg and Britain met here today to align their policies for next month's Korean peace conference in Geneva.

They met as the permanent commission of the Brussels Treaty Organization, forerunner of the 14-nation Atlantic pact.

All five nations have forces in Korea. All except Luxembourg will attend the Geneva meeting, which opens April 26.

They hope to agree on a common attitude on Korea for submission to a preparatory meeting starting soon in Washington of the 16 allies who fought together in Korea.

PAKISTAN GOVERNMENT FACES SERIOUS DEFEAT

KARACHI (Reuters)—The Pakistan government party—the Moslem League—faced the prospect of a serious electoral defeat in a state poll today.

Early results from a state election last week in east Bengal—home of half Pakistan's 76,000,000 people—indicated major gains today for coalition of opposition parties set up to beat the Moslem League.

The United Front scored 2-1 victories over the league and independent candidates in three early returns.

The United Front consists of Moslem groups outside the league, Hindus, Communists and leftwingers.

Canada-Japan Trade Talks Hastened by U.S. Action

BY HAROLD MORRISON
Canadian Press Staff Writer.

A United States decision to give Japan gifts of wheat and barley as part of defense aid likely will speed up signing of a Japanese-Canadian trade agreement.

Japan is one of Canada's top grain customers, second only to Britain in wheat purchases, and with marketing competition increasing, this country is anxious to protect that market for Canadian grain.

In 1953, Canada's exports to Japan increased to \$118,600,000 from \$102,600,000 in 1952.

Japan's sales in Canada totalled only \$13,600,000, up slightly from \$13,100,000 in 1952.

A big portion of Canada's exports was in grain. Wheat shipments in the calendar year 1953 totalled \$52,400,000, almost double the \$27,000,000 shipped in 1952. Barley shipments to Japan rose to \$17,500,000 from \$13,600,000.

concessions can be withdrawn if Japan "dumps" goods at rock-bottom prices on the Canadian market.

In turn, Japan will guarantee Canada "non-discrimination" in the allocation by the Japanese government of dollars for imports. Japan has exchange controls and a dollar shortage.

Recently the U.S. announced that as part of defense aid, it will provide Japan with 500,000 tons of wheat and 100,000 tons of barley free.

Indications now are that the Canadian pact will be signed in Ottawa in the next few weeks.

NO DUMPING

The agreement will provide tariff reductions on Japanese shirts, gloves, toys, novelties and other goods, but likely will safeguard Canadian manufacturers with a proviso that the

One of British Columbia's best-known lumbermen, Mayo Singh, was fined \$20,000 in Lake Cowichan police court last week on four charges of making false statements on income tax returns.

Two of the charges were laid under the Income Tax Act for 1947 and 1948, and the others under the Income Tax Act concerning alleged violations in 1949 and 1950.

Accused pleaded guilty to all four charges at a hearing before Stipendiary Magistrate Col. J. H. Boyd.

The Crown, represented by A. G. Duncan Crux of Vancouver, has charged arrears of more than \$300,000 in a suit that is being disputed. Defendant has deposited \$100,000.

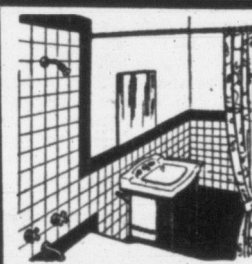

Another 14 charges against Mayo were withdrawn, and a further 10 charges connected with the income tax acts and the Excess Profits Tax Act, laid against Mayo Lumber Co. Ltd. and concerning returns filed while Mayo was a director, also were withdrawn.

YOU'VE HEARD ABOUT ANTI-ENZYME ACTION! IT'S NEWS!

AMM-I-DENT Anti-Enzyme Action

The Invisible Decay Barrier! Amm-i-dent's major anti-enzyme ingredient stays in the mouth, acts continually.

New Hope for Security from Tooth Decay came first with Amm-i-dent's ammoniated formula. Now morning and evening brushing protects your teeth all day.

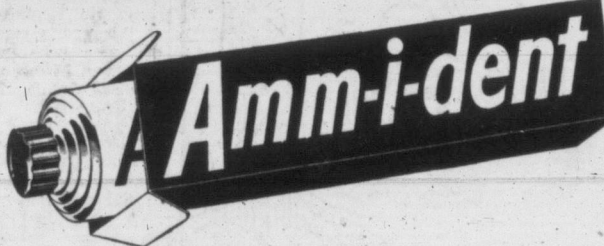

GIVES YOU A DECAY BARRIER

The big news in dental care is anti-enzyme action. Amm-i-dent's formula brings you anti-enzyme action in two ways.

- 1 Instantaneously with an ingredient which removes the vast majority of all enzyme producing bacteria from the surface of the teeth.
- 2 Continuously with an ingredient that actually stays in the mouth, with an enzyme inhibiting action.

This is the decay barrier which surrounds each and every tooth in your mouth with double, long-lasting protection.

QUEEN TO MOVE TO WINDSOR?

LONDON (AP)—Buckingham Palace officials denied all knowledge today of a published report that Queen Elizabeth dislikes the 690-room palace and plans to make her permanent home at Windsor Castle, 30 miles west of London.

The report, published by the Sunday paper, The People, said the Queen seeks greater privacy and wishes to rear her two children in a country atmosphere.

"Obviously only the Queen could make such decisions, and nothing of the kind has been announced," a palace spokesman said.

The Queen, represented by A. G. Duncan Crux of Vancouver, has charged arrears of more than \$300,000 in a suit that is being disputed. Defendant has deposited \$100,000.

Guatemala Moves to Counter U.S. Anti-Red Resolution

CARACAS, Venezuela, (UP)—Guatemala started a drive today to counter the effect of a U.S.-backed resolution opposing Communist infiltration in the Western Hemisphere.

Guatemalan Foreign Minister Guillermo Toriello planned to attack the declaration, overwhelmingly approved by delegations to the Inter-American Conference, as a bald attempt to meddle in his country's affairs.

Toriello said Sunday Guatemala would appeal to the United Nations Security Council if the United States ever attempted "intervention" in Guatemala under the anti-Communist resolution.

The declaration approved overwhelmingly Saturday condemned international Communist intervention in the hemisphere. It set up emergency machinery to call a consultative conference if the Red threat grows. It also would expose Red agents and their propaganda in the hemisphere.

With a Clean Slate

THE ACTION OF THE B.C. Power Commission and its chief engineer in resigning was honorable and proper. After the report of Mr. Justice J. V. Cline on the Whatshan power plant disaster no other course was open to them. These gentlemen leave office, however, without a stain on their personal integrity. They go with the knowledge that they have done honest work for this province—a fact which the people of British Columbia will not forget.

It is to be hoped that the Government will move quickly to appoint to the Power Commission the ablest men it can find. The work of the Commission cannot be interrupted.

It will be for the new commissioners to give consideration to the proposed Buttle Lake dam in Strathcona Park. Undoubtedly the Commission, if it is worthy of its responsibility, will examine the whole scheme from its beginnings—the actual need of de-

veloping more hydro power on the Island when a B.C. Electric transmission cable from the mainland is already in prospect; the probable damage to Strathcona Park; and the reports of the independent experts who believe that a dam at Buttle Lake would not be safe.

In view of the change in the membership of the Commission, and the obvious public anxiety about the effect of the proposed dam on the park, the Government has no right to push the project forward. As Mr. Bennett very properly says, the new Commission must form its own conclusions on Buttle Lake, unprejudiced by the actions of its predecessor. The Legislature should be assured that nothing further will be done without the approval of the new Commission, since the B.C. Electric cable proposal has completely changed the power picture for the Island.

St. Laurent and China

SOME CATHOLIC MISSIONARIES of Quebec, who once ministered in China, refuse to believe that Mr. St. Laurent has any intention of recognizing the Chinese communist Government at some future date. They say that the Prime Minister's recent statement on this subject must be a misquotation. He was quoted as saying at Seoul a few days ago that "some day we will have to be realistic and recognize that the Government of China is the Government the people want."

Actually there is no reason for doubt or surprise about that statement. It is the logical projection of the Canadian Government's long-term policy in Asia. It is also in agreement with the policy of Britain and most, or all of the Commonwealth.

In 1950 Britain had recognized the Chinese Government. Canada was preparing to do the same. So

was the United States. Then China committed its aggression in Korea and all thought of recognizing it was thrust aside.

But if there is a firm Korean settlement at the forthcoming Geneva conference, if China purges its crime and gives reliable guarantees of good conduct in the future, the problem of recognition will arise again. Already it has become clear that a majority of the United Nations will be prepared to seat the Chinese Government once the present uneasy Korean truce has hardened into a firm settlement. Under those conditions even the opposition of the United States could not prevent such a decision.

If that happens it would not be surprising to find the Canadian Government recognizing, without for a moment approving, the Peiping Government. It would be recognizing, as Mr. St. Laurent indicates, a fact beyond its control.

Is Public Business Public?

IN THE LAST FEW DAYS VICTORIANS have noted new moves to keep citizens in the dark on affairs which are their direct concern. The latest of these developments is a draft by-law which would leave to Mayor Harrison or the city manager the decision on letters and communications to be made public and the power to limit open discussion of Victoria's business.

This follows the improper and precedent-making decision of the mayor some time ago to bar reading of letters in open council on the library issue.

Under terms of the by-law draft, the public is told, the mayor or manager shall have the right to dispose of any communication which he considers "defamatory or undesirable for the business of the city."

There are, of course, occasions on which privacy or secrecy is desirable, if not essential, in certain phases of public business. Where personalities or financial transactions influenced by market conditions and the like are involved, a case can be made for their discussion in camera.

But the by-law suggests opportunities for an autocratic control which is repugnant to the traditions of democracy. It is only necessary to recall the message from the Saanich Teachers' Association stating simply that it endorsed "the stand taken by Professor Wallace with re-

spect to the democratic rights of an individual" to illustrate the point. The mayor, with the advice of one other person, ruled that the statement might be libelous. He barred its reading. Obviously there was no legal justification for his action.

Is he, under the proposed by-law, to assume the right of disposing of material which he considers "defamatory or undesirable"? Is he, in fact, to be given power to hide from the light of day anything he dislikes, whether that dislike springs from sound legal grounds or from sheer caprice?

And following the remarkable performance of last week, when he returned to his mayoral chair to announce a ruling after a council meeting had adjourned, can the public afford to extend further powers to him?

Mayor Harrison, it will be remembered, is the candidate who campaigned on a platform of open meetings and keeping the public informed. Now a by-law proposes a reduction in the flow of information to the public and curtailed reporting of council and committee business.

Surely the storm warnings have been raised. The citizens of Victoria have new reason to understand that the price of their democratic rights is eternal vigilance. They cannot afford to leave to one man—their elected servant—decisions which could be vital to their welfare.

That Ill-Suppressed Desire

MODERN LIFE BREEDS TENSIONS which previous generations escaped. And every so often we read of cases where the pressure became more than mortal strength could bear. A New York bus driver revolts after 20 years of dutiful driving, dumps his passengers, and sets off in his vehicle for Florida. A husband breaks under a quarter century of nagging and finally shoots his spouse. The meek clerk is goaded once too often and tells his boss. . . . Everywhere final straws are being applied and camels' backs are breaking. So was it with George Orr, of Reigate.

Mr. Orr's breaking point came, according to news dispatches, when rain began to spot the shop windows of that city's business district the other day. As the report puts it, "something seemed to snap." For George is a window cleaner, and presumably he had just finished polishing all the surfaces which were now rapidly clouding up. He seized a beer bottle and ran the length of the main street, smashing more than a thousand dollars worth of

plate glass and no doubt winning himself relief worth many times that.

Such a recourse, while highly satisfying, is a little hard on other folk—for whom, indeed, a broken plate glass window might be just the final straw to send them shrieking out on still other destructive missions.

Sooner or later society is going to have to provide adequate tension-releasers for the people—more clay-pipe shooting galleries, more coconut shies, more facilities where, for a fee, a citizen can be a bull in a china shop amid a heart-warming clatter of splintering glass and shattered repressions.

There is a good argument for the theory that wars provide a periodic outlet for the mounting destructive impulses of mankind. But remote push-button warfare and the atom bomb may soon deprive harried humans of even this time-tested personal release. Governmental action, in the form perhaps of a Department of Emotional Relief, is rapidly becoming a necessity.

The Bridge of Sighs

Chips

BY DAVID BROCK

A PSYCHIATRIST in Toronto recently testified in court that a child of less than three years old cannot have "temper tantrums." He was under oath, too.

At least, he was reported to have said this, though of course the reporter was not under oath. If he really did say it, I don't think he was going back through a very wide experience of infants. I fancy he was just quoting some book or other. Possibly the book was written by himself, which is always very misleading to the author. Some authors think their own works are infallible, and some mostly believe their own works are rubbish, but it is very seldom indeed that you meet an author who takes his own book in absolutely the correct dose—that is to say, with one grain of salt. And the same with painters, of course.

I'm not sure how this mind-leech would define a temper tantrum. It is a queer phrase at best, since it implies that you can have other sorts of tantrum, which is absurd. You can't have an affability tantrum or a benevolence tantrum or a joy tantrum. (I am using nouns for adjectives here, to make the scientists feel at home.) But if he means a display of uncontrolled crossness and petulance and peevishness, pushed to the point of hysteria or beyond it, which is almost certainly what he does mean, why then he jolly well errs.

I HAVE seen a six-months-old girl give way to her anger so alarmingly her mother was afraid the little beast would rupture something. It was no time to worry about Mental Health; the immediate worry was to keep the kid from falling apart. So the mother gave her a mild spank. It worked, too. Bears and monkeys and cats and dogs would have thought this a natural remedy, but people would be shocked.

The psychiatrist would say that this tiny spanking at such an age might have nasty results in the kid's character later on. Perhaps there is something in this, and perhaps not. But in any event, it is hardly the point, for I'm merely saying this kid had temper tantrums very early in life. She still gets cross at the age of ten. But at least she can lose at cards with better grace (though not much) than her twin sister who wasn't spanked for years after.

WHEN these twin girls were between one and two, they woke each day at 2.00 p.m. in the vilest tempers I have ever seen, bar one, which I'll tell you about in a minute. To be sure, they were sleepy and hungry. But so are most infants at

that hour. So are most infants at any other waking-time. These twins didn't wake up even faintly cross at any other time. But at 2.00 p.m. they shook themselves and their beds and their room to pieces in a rage that can only be described as gorilla-like. Every day. No matter how busy their father was, he used to come hurrying out of his study, singing and dancing and playing the ukulele, to distract them. It helped a little, too, though I dare say it gave them a hatred for third-rate vaudeville which they will never overcome.

HIS name was David, by the way, just like mine. But when his wife saw him dancing and playing, she was not like Michael, the daughter of Saul. She did not despise him very much indeed. She thanked him very much indeed.

I knew a little boy of much that age, too. . . . that is to say, between one and two. And each afternoon, after his noon rest, he woke in the same sort of tantrum. (Sorry, I mean temper tantrum, Doc.)

Most of his life was spent in manifesting an agreeable sweetness such as I've seen in few children outside of fiction. Very young children, I mean, for it was a genuine sweetness and not assumed for the benefit of aunts and favorite teachers and so on, in the hopes of reward. . . . that sort of playacting comes later.

AMONG older children, three of the sweetest I know are quite revolting in their more natural moments. Oddly enough, all three of them are really dirty bullies. . . . far-fetched bullies. But most grown-ups have failed to observe this, and think their taste for younger companions is most touching. Ah yes, and early of the three or had a bully for a father, which is probably no coincidence. . . . Far from being sadder and wiser, a child who is bullied doesn't always protect the weak later on, from hard-earned sympathy; he looks forward to being a bully himself. Often, though not always. (And thus with nations too.)

WHERE were we? Oh yes, the otherwise sweet little two-year-old. Daily at 2.00 p.m. he woke up like a devil turned loose. Roaring like a bull, he would kneel down on the hall floor. But instead of tearing up great clods of dirt with his horns, as a bull does before mauling, he contented himself with banging his forehead on the bare floor as hard and as often as he could. This made him feel much worse. Which was what he wanted. Maybe that wasn't a tantrum. Maybe he should have taken a sledgehammer to the piano, or filled the radio with buckshot, or battered a policeman into pulp. But he was doing the best he knew how.

As Our Readers See It

WATERFRONT

Interests are again at work trying to have the bush removed from Dallas Road waterfront.

It is to be hoped that no one will listen to the excuses given for advocating the destruction of this pleasant grove of willows, for it forms a much-needed windbreak, as well as a shelter and nesting place for the birds. All it needs is a little draining and judicious clearing-out, as would any other similar property.

If the same energy had been put into planting trees and bushes as there has been in uprooting them, the public might be able to enjoy a seat along the sea-front with a little more comfort than is now possible.

The argument given in favor of removing the bush is that it forms a menace to public morals; and for felling the trees, that they are a danger to passers-by. Actually, there are more queer goings-on in one night in the cars that park above Horseshoe Bay than there are in the Dallas Road bush in 12 months; just as there are more people killed and maimed by autos in one good week-end than there are by trees falling in the park in 100 years.

VICTORIAN.

SIMPLICITY OF PERFECTION

In a recent letter to you, Gladys Shrapnell, whose clever letters appear in your columns from time to time, made a statement which may be axiomatic. She said, in part: "As things grow greater they grow more simple and, in Beethoven's Ninth Symphony, his greatest and last message to humanity, its melodies are so simple as to be easily grasped by the most untrained ear."

This statement can be augmented to include all that man has achieved throughout the ages. The sayings of Christ, which have never been surpassed in beauty, are so simple that a small child can understand them. "Suffer little children to come unto me and forbid them not, for of such is the Kingdom of Heaven."

Even Shakespeare, whom we find difficult to understand at times owing to certain changes brought about during the passing of time, was readily understood by the people of his day, who were mostly uneducated. How simple in their perfection are our hymns: those gems of thought transposed into such beautiful language as, for example: "Gentle Jesus, meek and mild; look upon a little child."

Like a gazelle, the world's champion high jumper sails over the bar apparently without effort. With what ease and grace a great skater glides over the ice. It looks like child's play. As a boy, in London, I watched the world's greatest billiard player, J. Roberts, and, frankly speaking, I was quite bored. He never stretched himself once to make a spectacular shot—only simple cannons and pockets.

I had the honor of sitting next the

world's greatest organist, Dr. Kingsley, the nephew of Charles, the great author. He played Handel for me, and as I watched I thought it all so simple and easy. The world's greatest accompanist, who plays for Kreisler and Marian Anderson, also played Handel for me and, for a solid hour, he played without music and apparently without effort.

Listen to Churchill's beautiful but simple phraseology—there is no striving after effect there. I watched the great Sarah Bernhardt acting some years ago. Her performance was so natural one did not associate it with acting. Art and sculpture reached their zenith with Raphael and Phidias. See how beautiful and graceful their lines and how lifelike they are compared to our moderns. But, thank goodness, we are not compelled to look at the Picassos and Epstein's, who have hypnotized the world's so-called connoisseurs.

BCHIS

Agriculture Minister Kiernan is serving opinion but not "truth" in his summation of the original BCHIS; a mark of public service is to serve "truth."

The new hospital policy is absolute recession! Insidious suggestion that big industry will "pay" (?) aims at disguising the loss of even small luxuries that the average citizen justifiably expects to achieve—thus the "decoy of freedom" commences!

Surplus funds, built up by previous governments, will bolster new fascist schemes that, at best, can only have a few years' life expectancy, hence the frenetic grab at the "cash in hand—"

Our voting distributed the "rope." In the ignorance of history and of the existence of the mature thinking that lies in B.C., the Secord government are fashioning their own noose. Our jubilation is halted by our awareness of the depletion of our assets.

The new hospital policy undermines the splendid structure of the former BCHIS—it does not destroy the "live" vital memory of its inception, at which time Byron Johnson instructed that this scheme would be "built upon" with many valuable advantages "growing out of" it as time, and a people's awareness of its benefits, progress. Opposition was negligible from even the die-hards! The new hospital policy will never be assimilated by "freedom-loving" people, who must now be aware of a serious schism existing in the "common identity," that formerly obtained between Provincial Government and British Columbians.

This ultimate issue shows that Secord "power" has violated the integrity of a splendidly conceived and expandable BCHIS that was wholly acceptable to British Columbians.

The Mask Is Off

BY WALTER LIPPMANN, From Washington

WITHIN the inner councils of the Administration there have long been two conflicting estimates of Sen. McCarthy. The one has been that his target is the Democratic party, and that his purpose is to discredit it so deeply with the charge of treason that for a generation it will not be able to return to power. The opposing view is that McCarthy's target is the capture of the Republican party, and that his purpose is to dominate or to destroy President Eisenhower.

Ever since the summer of 1952, and particularly since General Eisenhower went campaigning in Wisconsin with McCarthy, and in Indiana with Jenner, the President has been using all his skill as a conciliator and compromiser to avoid a showdown between the two factions of his party.

He has been able to do that as long as Senator McCarthy was willing to let it appear that his big guns were shooting at the Truman administration, and that he was only sniping at the Eisenhower administration.

The turning point was reached in Senator McCarthy's television broadcast of November 24. That was when, having been granted free time on all the networks to reply to some remarks of ex-President Truman on the subject of "McCarthyism," the Senator seized the occasion to attack the Eisenhower administration, charging it with being soft to Communists at home and abroad.

That speech, it seemed to me, was a clear disclosure that McCarthy was shooting at Eisenhower's leadership of the Republican party. In plain fact it was a declaration of war.

After that it was mere self-deception to cling, as did Chairman Hall for example, to the notion that McCarthy's main object is to defeat the Democrats and to help the Administration obtain a good Republican majority in Congress. Chairman Hall's fond dream was not allowed to last very long.

Senator McCarthy had no sooner gotten himself sponsored by the Republican National Committee as a valued spokesman of the Party of Abraham Lincoln, when—returning from his tour—he promptly bit the hand that had fed him and was trying to pet him. He attacked the administration of General Eisenhower at what must be its most sensitive point, namely the administration of the army which the President has commanded in war and of which he is the Commander-in-Chief—today, McCarthy charged the army with coddling Communists.

McCarthy did not charge that the Army had made a mistake, or that there was a muddle of red tape and regulations. The charge of "coddling" implies and is meant to imply an intent to help Communists infiltrate the Army.

There is no use pretending that the Senator merely lost his temper, or that all this was mere rough and tumble politics. This was a blow, meant to be lethal as it is followed up, against the administration of General Eisenhower.

Back in November after the television broadcast, it was only very probable, it was not as yet certain and unmistakable, that McCarthy is out to rule the Republican party by routing Eisenhower. But now we know. His ablest and most plausible supporters are no longer at pains to deny it.

The issue, they are saying, is the coddling and nurturing and harboring of traitors inside the government owing to the fact that General Eisenhower was too closely allied with the Truman administration to allow its wrong-doing to be fully exposed.

If the charge which underlies these insinuations were true, the President would not merely be open to criticism for being lax, careless, complacent, and slow to realize the facts—as is his predecessor. If the charge in this insinuation were true, the President would be guilty of willful and deliberate "coddling and nurturing and harboring of traitors inside the government."

GRAVE ACCUSATION This is as grave an accusation as has ever, I believe, been made against a President of the United States. After such a mortal accusation, to pretend that all the Republicans can get together, can forget McCarthy, enact a constructive and dynamic program, and fight only the Democrats, is an insult to the intelligence.

Nor is it anything but a piece of planned obfuscation to talk as if the question is whether President Eisenhower should attack McCarthy at the risk of dividing the Party. The President has done everything that a man can do to avoid a fight with McCarthy and a division in the Party.

There is no doubt whatever that McCarthy is a deliberate aggressor, that he is fighting Eisenhower's leadership and control of the party, and that he is making no concessions of any kind in the interest of Party unity or of a Republican in the autumn elections. He is in fact making it increasingly difficult for the independent voters and for the liberal Republicans to support the Party.

WATER POWER

There is one way of using the energy which the sun pours out over the earth which is certain to grow greatly in the next twenty-five years. Every time a gallon of water runs down a hill, the sun has to evaporate it, lift it up as a cloud, and then drop it again as rain at the top of the hill. Every year enough water flows downhill, all over the world, to equal the energy we use from coal and oil in the year. But we still let more than ninety per cent of this water power run to waste. It is certain that water power must take a large part in the development of energy within twenty-five years. And this will be particularly so in Africa and in Asia and in South America; for the largest resources of water power lie there, and the damping of rivers for power can be coupled with the irrigation schemes which these continents need.

J. Brownson, Director of the Central Research Department of Britain's National Coal Board.

He Dared to Bait McCarthy

Joseph

There is something oddly reassuring about a talk with Sen. Ralph E. Flanders, Republican of Vermont. Flanders is a solid-looking, elderly man, with the flat, deliberate speech of northern New England, and the shrewdly humorous face of a country lawyer. He is above all, an eminently sensible man.

This is the characteristic which immediately strikes the visitor—and it is reassuring to be reminded that American voters can be so sensible as to elect such a man.

Like other such men in Congress (and there are more of them than sometimes appears) Sen. Flanders has not attracted a great deal of attention in his eight years in Washington. But a few days ago the nation and the Republican party were rather sharply reminded of his existence when he arose on the Senate floor and delivered a quietly devastating little speech about Sen. Joseph R. McCarthy of Wisconsin.

Flanders not only bluntly charged McCarthy with seeking to "shatter" the Republican party. He also made fun of McCarthy, something which has hardly ever been successfully done before. His best passage may become a classic: "(McCarthy) dons his war paint. He goes into his war dance. He emits his war whoops. He goes forth to battle and proudly returns with the scalp of a pink Army dentist."

HIS OWN IDEA

Asked by one of these reporters how he came to make his speech, Flanders replied that it was "strictly my own idea." There were no urgings from the White House, or elsewhere. It was, Flanders realized, "a very serious thing to do—to get up on the floor of the Senate and say how I felt about this McCarthy matter."

It was indeed, McCarthy is personally disliked question the most nearly universally disliked man in the Senate. Yet his bullying tactics have been so successful that precious few Democrats, let alone Republicans in this Congress, have dared to breathe a word of criticism of him.

"For over a year now," Flanders says, "the Republican leadership has been trying to get all the McCarthy followers and all the Eisenhower followers into the same camp. Perhaps it might have been done—no one on our side wants to split the party. But over and over again, McCarthy has served notice that it has to be McCarthy all the way or nothing."

"As this became clear it seemed to me that a real matter of principle was involved. So I took an extra day in Vermont this last week-end, just to sit and think. And in the end I made up my mind that I ought to speak out."

YOUR HEALTH

By DR. WALTER C. ALVAREZ

Why People Faint

Dr. Alvarez is Emeritus Consultant in Medicine, Mayo Clinic and Emeritus Professor of Medicine, Mayo Foundation.

Many people faint easily, especially when in a close room, when excited, when very tired, or when caught in a crush of people. Many wonder if such fainting is due to heart disease or any other serious disease, but it rarely is. Usually all it means is that the person is sensitive and nervous and highly responsive to many influences.

I will never forget the nervous, jittery sailor who once came into my office saying that something just had to be done for him or he would have to commit suicide. He said he was getting a reputation for being the worst coward in the navy.

What happened was that whenever he had to be vaccinated or get in line to see the ship's doctor for something, he fell in a faint. I soon found that his mother and an aunt were just like him; they were all too impressionable, and I didn't know how to make them over. I would have had to start with a different set of grandparents!

Many of the women who faint easily are migrainous; or, in other words, subject to sick headaches. An occasional person who faints if she has to stand for quite a while, as when a dressmaker is fitting a dress, or when she is in line at the post office to mail a package, may have a low blood pressure. Again, there usually isn't much that can be done for her.

EPILEPSY DANGER

The only persons who need to worry about fainting are those whose spells suggest a form of epilepsy. Such persons are inclined to fall hard so that, occasionally, they injure themselves. Usually they fall when they haven't had any excitement. Sometimes one can suspect epilepsy when the person has a brief warning that he will fall. Persons with simple fainting are rarely convulsed, and in a spell they never bite their tongue or soil themselves. With an epileptic type of fainting, the person is likely to be unconscious for a few minutes, and when he comes out of the attack he may feel dull, stupid, irritable, and headache for a while.

The person who has a harmless faint wakes quickly and then feels all right. She is not likely to hurt herself when she falls because she goes limp and slumps down. She has just enough consciousness left so that she can avoid getting hurt. Sometimes

I have a strong feeling," Flanders continued, "that the President himself has got to assert his leadership and authority more."

He is, Flanders admits in his sensible way, not absolutely sure specifically what the President ought to do. It might have been better, for example, if the President himself, rather than Vice-President Nixon, had answered Adlai Stevenson's charge that the Administration had sold out to McCarthyism.

But it still appears that the President is "under the influence of the political advice of those who think he can hold himself clear from McCarthy."

There is, Flanders says dryly, "no use fooling ourselves." Even in Vermont there are "a surprising number of people who look on McCarthy as a gift from heaven." But it is important to remember that the vast majority of these people will never vote Democratic under any circumstances.

NO USE PRETENDING

It is true that some of them might stay home in November, if Eisenhower makes his position on McCarthy unequivocally clear. And it is no use pretending that "if Eisenhower goes it alone, this will make the Republican party safe in November. Nothing will do that."

"But I think on balance," the Senator continues thoughtfully, "that a clear-cut split would help more than it would hurt. Of course I can speak only about Vermont, which is Republican anyway, and I may be wrong. But I know so very many people who will vote Democratic if it appears that the Administration has indeed surrendered to McCarthy."

"There is remarkably little in a business life," Flanders says forgivingly, obviously with the surrender of the unfortunate Secretary Stevens in mind, "which prepares a man for a life in politics." The Senator speaks from experience. Again reassuringly,

his raise from bonded apprentice at sixteen (the Phi Beta Kappa he wears on his elegant mole-skin suit is honorary) to wealthy capitalist is in the great American tradition. He even followed tradition, Flanders remarks smilingly, by "marrying the boss's daughter."

"What taught me a lot about politics, after fifty years in business," he says, "was running for the Senate the first time and getting licked. I learned not to rise to every fly in the pool, wet or dry. I learned not to take too much advice. I learned that the best rule in politics is to be yourself." This is indeed a sensible rule—and one that President Eisenhower himself might well ponder.

L.B. Thomson Reported Candidate For Sask. Liberal Leadership

By VICTOR MACKIE

Times Ottawa Correspondent

OTTAWA — L.B. Thomson, director of Prairie Farm Rehabilitation Act, with headquarters in Regina, is planning on resigning from that post next fall prior to seeking the leadership of the Liberal Party in Saskatchewan, according to persistent rumors, circulating here.

Mr. Thomson's name is mentioned frequently among Saskatchewan members of Parliament, when the question of a successor to Walter Tucker, now MP for Rossmore, is discussed.

Mr. Tucker was Liberal leader until last spring, when he resigned to re-enter the federal field.

It is understood a number of prominent Liberals in the province have urged Mr. Thomson to allow his name to go before the leadership convention, scheduled for next fall. His superiors at Ottawa have been approached and informed that there is increasing support among Liberals in Saskatchewan to have

Mr. Thomson resign from his PFRA post and run for the leadership.

MANSLAUGHTER VERDICT

MELFORT, Sask. (CP) — Ernie David Flett, 23, was found guilty Saturday of a reduced charge of manslaughter. The jury recommended leniency.

Flett was charged with murder following the Oct. 24 fatal shooting of 40-year-old Stephen Young during a drinking spree on the Shoal Lake Indian reserve. Two women were wounded in the shooting.

Included in final witnesses was Dr. A. Stephen, a Saskatoon psychiatrist. He said it was his opinion that the amount of alcohol consumed by Flett would have rendered him incapable of proper judgment.

It was reported earlier that the party was drinking "la-poute," a crude homemade wine.

FLIER SAFE

WINNIPEG (CP) — RCAF headquarters at Winnipeg reported today that A. J. Dawson

of Winnipeg, 19-year-old pilot of a flying club plane missing since Sunday between Brandon and Winnipeg, has walked safely into a farm home at Sidney, Man., 40 miles east of Brandon.

Air force officials said few details are available, but Dawson's light craft was heavily damaged in a field nearby.

Dawson, a member of the Winnipeg Flying Club, took off from Brandon at 12:57 p.m. Sunday on a 1½-hour, 130-mile flight east to Winnipeg, carrying sufficient fuel for three hours. The craft carried no passengers.

MURDER TRIAL OPENS

CALGARY, Alta. (BUP) — The murder trial of Pte. Walter Clerpiss, 17, of Windsor, Ont., was scheduled to open today before Mr. Justice J. Boyd McBride.

The soldier is charged with the fatal shooting of Pte. Robert Bilow, 21, at the Currie Army Barracks here last Jan. 5 after a quarrel.

SYNOPSIS—A low pressure area of small proportions appeared about 500 miles west of Oregon Sunday afternoon and moved gradually eastward over the Pacific Northwest.

This morning it was only a short distance offshore northern Oregon. There are fair indications that it will now grab anchor off the immediate coast for a few days. Supplies of cold air from the Gulf of Alaska and warm moist air from the southern Pacific are gradually intensifying this storm and cloudiness has spread to most of southern B.C. In-

temittent rain will be general over coastal districts Tuesday while mostly overcast skies in the interior should yield occasional showers especially over the southern part.

HE WAS LYING IN THE GRASS LOOKING AT ME SO I SHOT HIM

Ontario Court Hears Grisly Details How Two Youths Shot Messenger for \$14

BARRIE, Ont. (CP)—I'll bet that's the first time anyone shot a man for \$14, Ian Robertson, 20, is alleged to have told William S. Kingsley, 19, shortly after Fred Scott Cameron, 57, was shot to death by the youths in a water-filled ditch on a Barrie district road Saturday.

Kingsley's statement told of his first meeting with Cameron and of his having had homosexual relations with the slain man.

The statement quoted Kingsley as twice shooting Cameron. After the first shot Cameron was put in the trunk of Robertson's father's car and the youths drove along the Barrie highway with Cameron not yet dead, pounding on the trunk sides and shouting.

"Cameron was yelling in the trunk of the car, yelling and yelling. It was awful to hear him yell. It scared me. We pulled off on a side road," the statement quoted Kingsley as saying.

"Robertson then said: 'Don't feel sorry for the old man. We're doing the world a favor.'"

"Robertson stopped the car and opened the trunk... Robertson had taken the gun and when he opened the trunk he hit Cameron a couple of times. Then Cameron got out and walked toward Ian and Ian was standing there with the gun in his hand and Ian shot him a couple of times.

"Robertson said: 'We've got to make it look like a gang killing to get away with it. Grab his watch and go through his pockets.'"

"We then ran back to the car and Robertson told me to clean the gun. Ian got in and started the motor and said: 'Go shoot him again. I went over and he was lying on the grass still looking at me.' So I went close and shot him.

"Later in the car Robertson pulled some money from his pocket. He had a \$10 bill, three ones and a handful of change. Robertson said: 'I'll bet that's the first time anyone shot a man for \$14.' and then he joked all the way down."

Five Victorians Elected to Scouts' B.C. Council

Five Victorians were elected to the British Columbia Provincial Council of the Boy Scouts Association at the annual meeting and commissioners' course held in Vancouver from Friday to Sunday.

Local men chosen were: Lieutenant-Governor Clarence Wallace, CBE, provincial patron; T. W. S. Parsons, honorary provincial commissioner; Maj.-Gen. W. W. Foster, CMG, DSO, a vice-president, and Stuart Keate and Aubrey Kent, members of the executive committee.

E. E. Gregg, Vancouver, was returned as president. Annual reports reflected considerable growth in the Scout movement in British Columbia. During 1953 the number of cubs, scouts, rovers and leaders increased from 18,745 to 20,132.

At Friday's annual banquet the Lieutenant-Governor officially decorated boys and leaders with awards announced earlier in the year by Rt. Hon. Vincent Massey, Governor-General, in his capacity as Chief Scout of Canada.

Awards were won by Cub Harold Paul Sjöström, of Youbou; Scout Frank Redshaw, Wyndell, B.C.; Field Commissioner F. J. Huish, Vancouver, and Provincial Executive Commissioner R. Keen Jordan, Vancouver.

\$2.3 MILLION EXTRA BLAMED ON 'GAS FIX'

VANCOUVER (CP)—Everett Irwin, president of the B.C. Automobile Association, says alleged gasoline price-fixing on the Lower Mainland has cost motorists and truckers \$2,340,000.

His calculation was made following a federal government charge that price-fixing existed in a combine of 31 service station operators and two trade organizations.

The government anti-combines commission said the combine was set up in April, 1951.

At that time, the government said, the operators stopped taking a straight five-cent profit on each gallon of gasoline and adopted a 20 per cent mark-up system on the wholesale price.

Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline, non-acid powder, on your plate. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Cheeky "plate odor" (bad breath). Get FASTEETH at any drug counter.

We agree with people who say, "don't borrow money unless you must"—however, when you do have to borrow money, we think Niagara is the kind of loan company you'll want to do business with. Here are some features you'll want when you borrow.

You'll rate "service" high on your list, we're sure. At Niagara, we do too. We like to think we're prompt—some loans are made in 20 minutes. And polite—our company has been designed to serve our customers. Almost everyone can borrow money at NIAGARA when they need it... our plans are flexible, and on many amounts a 24 month payment period can be used.

"Reliability" will be important to you, too. Our business started in Welland, Ontario, over 25 years ago. We're associated with the Industrial Acceptance Corporation whose Merit Plan has been used by hundreds of thousands of Canadians to buy cars, appliances, etc. We're an all-Canadian Company with over 80 branches from coast-to-coast.

And here are two additional points about Niagara Loans: Rates are lower on many amounts... so you get more for your money. Loans to \$1500 are life insured at no extra cost to you... when you can get this family protection, why do without it?

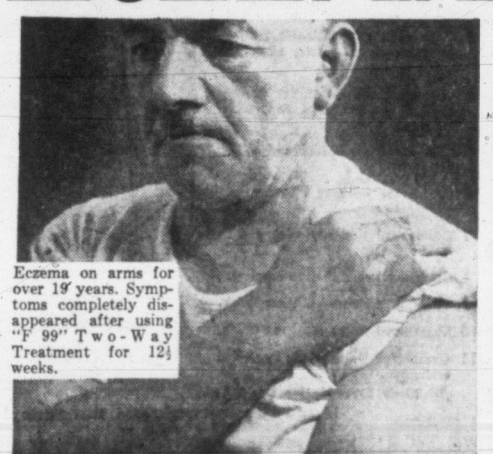

If you need money for any good reason—just drop in or phone, anytime.

Remarkable Results with Swiss Treatment
"F 99" is not a synthetic drug but a concentrate of natural nutritive substances. Eminent scientists have discovered that the lack of unsaturated fatty acids in human nutrition is one of the main causes of skin diseases such as Eczema, Infantile Eczema and Leg Ulcers. A Swiss Chemist succeeded after many years of research in extracting from pure vegetable oils unsaturated fatty acids in a high concentration. These fatty acids are now contained in the "F 99" preparations.

"F 99" Two-Way Treatment
The "F 99" Two-Way Treatment acts internally as well as externally. To many thousands of skin sufferers all over the world, "F 99" has already proven its tremendous value and is being used with outstanding results, even on cases where all ordinary treatments have failed.

We don't have to tell the world the '54 Studebaker
is the only really new car in Canada...
the world is telling us!

BEING FIRST with big changes for the better is no new role for Studebaker. Time and again we have had the satisfaction of seeing other makers come around to our ideas of what a modern car should look like. You remember the pioneer Studebaker Champion. You recall that Studebaker was first by far with a postwar car. Now once more we are several years ahead of the field with our 1954 Studebaker—and that's not just our opinion. It's what automobile editors and other informed authorities outspokenly say.

Ahead in solid quality, too. Styled superbly by the world's foremost designer, Raymond Loewy, the 1954 Studebaker is solid and sound with the best craftsmanship in the automobile industry. This insures low maintenance expense—and Studebaker's clean-lined new design eliminates needless excess bulk to save you plenty of gasoline. Better still, Studebaker engines don't require "premium" gas. They proved this decisively when they

scored amazing gas mileages in the last Mobilgas Run—the only cars entered that used "regular" gas exclusively.

Ahead in stand-out value. We build Studebaker cars for forward-thinking, forward-looking Canadians—people who feel they're entitled to the utmost in advanced styling—in brilliant engineering—in dollarsaving operating cost—in real safety.

The 1954 Studebaker is especially appealing to people who know that a car ahead of the parade is certain to get them more when they trade.

Won't you stop in and try it out—at your nearby Studebaker dealer's?

STUDEBAKER
THE GREAT INDEPENDENT...PIONEER AND PACEMAKER

Get ahead of the parade! Get more when you trade!

Don't take our word for it...here's impartial proof!

"Studebaker has done the car buying public a considerable service. It has produced one of the best conceived, cleanest and the most modern shapes ever put on any production car anywhere."
—Auto Sport Review

"We have awarded Studebaker our Gold Medal for outstanding design and distinctive styling."
—Fashion Academy, noted New York School of Fashion Design

"Raymond Loewy, Studebaker's designer and chief stylist, proved once again that he's the guy the rest of the country's designers wish they were. In the style department, Studebaker is 50 miles ahead."
—Tom McCall in Mechanix Illus.

"There can be no question about it—Studebaker has, with its new model, made every other car look ten years older."
—Motor World Magazine

NEW YORK'S MUSEUM OF MODERN ART SELECTED STUDEBAKER as the only American designed car for its exhibition of the ten most beautiful automobiles in the world.

Look what you get

in a new 1954 Studebaker

Longest wheelbase in the low price field... Extra large, extra powerful brakes... New 7.5 to 1 high compression in both Champion 6 and Commander V-8 engines... QUEEN, DUKE GO EXPLORING, SWIM, RIDE IN GLASS BOAT

ABOARD GOTHIC (Reuters)—Queen Elizabeth put on a big straw sunhat to go exploring Sunday with the Duke of Edinburgh on a volcanic island in Australia's Great Barrier reef.

The Duke took a swim in the blue waters of a reef lagoon. Then the Royal couple went for a trip in a glass-bottomed boat through which they could see the multi-colored coral and tropical fish.

Other members of the Royal household went fishing on the reefs and gathered oysters and ate them on the spot.

EIGHT KILLED IN GEORGIA TORNADOES

Property Damage
Totals \$23 Million

ATLANTA (AP)—A small army of soldiers, airmen and civilians today formed a clean-up task force in the wake of week-end tornadoes which killed eight persons in central and west Georgia and did more than \$23,000,000 damage to property.

Three separate twisters whirled out of the night Saturday and carried their lethal force into Macon, where three died; to a rural area near the central Georgia city, killing three others; and to Lawson air force base, adjoining Fort Benning, where two others were killed.

CHILDREN KILLED

Four of the dead were children and two of those were infants. Seventy persons were injured and 23 were taken to hospital.

The tornadoes slammed into the same general areas where similar storms killed 18 and piled up damage exceeding \$30,000,000 less than a year ago. West Georgia was hit first. What appeared to be the largest of the tornadoes tore a path 600 yards wide across the air base near Columbus. The powerful winds overturned several giant C-119 Flying Box-cars which the air force uses as troop carriers. Eight of the 35-ton craft were destroyed and this contributed heavily to the damage estimate.

Pirie Wins

BIRKENHEAD, England (AP)—Gordon Pirie, brilliant young British distance runner, won his second English cross-country title Saturday over a 9½-mile course at Arrows Park. He won by 100 yards from Ken Norris. Pirie's time was 50:55.0.

POPE'S ILLNESS DESCRIBED

VATICAN CITY (Reuters).—The Pope is suffering from a stomach complaint called "stegnosis of the pylorus," it was learned Sunday night.

This is the description of the Pope's malady given in the last few days to cardinals and other high prelates who have asked for news of his condition.

It means contraction of the end of the stomach which leads into the small intestine. It was understood that this contraction is still preventing the Pope from keeping down any but minute quantities of food.

32 Win Private Pilot Licenses; Prove Flying Not Sport for Rich

Flying is not necessarily a rich man's sport and is within the means of the average Victorian, Dr. Arthur B. Nash, president of the Victoria Flying Club, told the club's annual "wings banquet" at Patricia Bay Airport Saturday.

Highlight was the presentation of 24 licenses to new pilots and commercial licenses to two other members. For the first time in four years there was not a woman among the graduating class.

Desmond Murphy, air regulation superintendent of Vancouver, made the presentations.

Speaking on the flying school, Dr. Nash said it costs \$388 to gain a private license as a member of the club. One hundred dollars of this sum was returned by the federal government upon graduation, he said.

Dave Filby, instructor manager, said the club has four aircraft and services one for the RCAF and two for the navy's reserve squadron. Thirteen private planes belonged to club members, whose number now totals 150.

Commercial licenses were awarded to R. G. Nash, son of Dr. Nash, and A. H. Smith. Private wings went to D. G. Lingstad, F. Barry, and J. R. Alder, L. Baines, J. F. Beattie, Grant.

BRITISH COLUMBIA

Featured in This Week's STAR WEEKLY

British Columbia gets the spotlight in this week's Star Weekly. "Now the fastest-growing of all Canada's ten provinces", says Harold Hilliard, Star Weekly staff writer, who dramatizes the amazing engineering projects which are gaining world attention for B.C. In "Parade of the Provinces" this week's Star Weekly feature describes "These dazzling days on the west coast."

- A new educational feature for children, starting in this issue is a series of stories from The Bible told in colored pictures. It's in the magazine section, entitled "Tales From the Great Book." This week's pictures tell "The Saga of Samson."
- Saskatchewan's controversial compulsory motor car insurance plan is discussed in a special article entitled "Victim of Its Own Success."
- India's Fight for Survival is the subject of a special article by

William Stevenson, another Star Weekly staff writer.

- The dog is a tamed wolf, according to Hugh Halliday, and his pedigree goes back 40 million years. Read "The Dog and His Family Tree."

- Writing from Hollywood, Dora Albert contributes an interview with James Mason who is scheduled to appear at the Stratford Drama Festival this Summer. It's entitled "A Veteran Actor Admits All Audiences Frighten Me."

200 Attend Festival Of Folk Dancing Here

Dutch and Ukrainian Cana-
dians performing their colorful
native folk dances, featured a
folk dance jamboree held at the
YMCA Saturday under the aus-
pices of the Greater Victoria
Folk Council.

Over 200 persons participated
in the successful jamboree. The
program included all types of
dances from early American
times to Brazilian dances. The
Dutch group from Port Alberni

danced with clogs to the accom-
paniment of an accordion and

sion."

She was accompanied by Mr.
Beckett.

Mr. Beckett in his solo per-
formances played Beethoven's
"Sonata in D Minor," selections
by Chopin and finally Debussy's
"L'Isle Joyeuse." "Jeux d'Eau"
and "Impromptu in A
Flat" by Faust.

The concert was sponsored by
the B.C. Registered Music
Teachers' Association.

Mayer Opens Drive For EDC Ratification

PARIS (UP)—Former Pre-
mier Rene Mayer opened a
final drive today by supporters
of the European army to get
it ratified before the eastern
peace conference begins in Ge-
neva, Switzerland, April 26.

Mayer called on his powerful
radical Socialist Party to with-
draw from the government and
provoke a new political crisis
rather than accept any more
stalling on a final decision on
the European Defense Com-
munity treaty.

Qualicum Adult Recreation Program Urged by Wallace

A well organized, well planned,
and well co-ordinated recreation
program for the mental health
of the people of a community is
of utmost importance, according
to Laurie Wallace, director of
the Community Programs
branch.

"The wealth of our country
lies in its people, not its natural
resources," Mr. Wallace told re-
presentatives of the Qualicum
Rotary Club, Qualicum Village
Commission, Canadian Legion,
Qualicum Parent Teachers' As-
sociation and Resort Owners'
Association at a meeting in Qual-
icum.

An effective community re-
creation program is just as im-
portant to mental health as sani-
tation is to physical health, he
said. Recreation is a privilege,
but in democracy it is also a
duty, he added.

Mr. Wallace said that adult
education is of supreme impor-
tance in a democracy. Adult ed-
ucation trains for critical think-
ing and goes hand in hand with
recreation. "No adult educa-
tion can be successful unless
there is recreation to refresh the
whole person," he added.

P. Eggersman, Rotary presi-
dent and school trustee, said the
community would be welcome
to use the new school buildings
for adult education and recrea-
tion.

Armies of Rats Devour Crops in Philippines

MANILA (Reuters)—Armies
of hungry rats have gnawed a
path of devastation across Min-
danao Island in the southern
Philippines, leaving thousands
of persons on the verge of star-
vation, reports reaching here
said today.

The animals have been mov-

Jaycees Search for Top Junior Citizens

Somewhere in Greater Victoria are a boy and girl who, because of service to others, will be singled out by the Victoria Junior Chamber of Commerce as the outstanding junior citizens of Greater Victoria. Presentation of junior citizenship awards will climax an annual program to find and give suitable recognition to all outstanding youths.

Conciliation Set On Firemen's Pay

A conciliation officer has been appointed in a dispute between Saanich firemen and Saanich municipality.

Main item of contention is the request of firemen for a substantial increase in wages. Council has countered with the argument taxpayers cannot afford a raise in taxes.

Union claims Saanich firemen are the lowest paid of any department of the same type in British Columbia. They pointed out the city first class fireman draws \$300 a month. The comparable job in Saanich pays about \$270 a month.

Union also wishes an increase in the number of statutory holidays.

Meeting between inside and outside works of Saanich and the council is pending to negotiate a new contract.

The two winners will be presented with a \$50 Dominion of Canada bond each, citizenship awards and lapel pins, by Mayor Claude Harrison.

"This project is being conducted by Jaycee clubs throughout the nation", said Norm Nichols, chairman of the project.

"It is a move to encourage our youth to become more community service minded."

Nomination deadline has been set for April 11.

A panel of judges will decide nominees' achievements in relation to their age and awards will be made May 6, at B.C. Products Fair.

Those between the ages of 14 and 18 are eligible and may be sponsored by church leaders, ministers, teachers or organization leaders. Application forms may be obtained from Junior Chamber of Commerce at 816 Wharf Street.

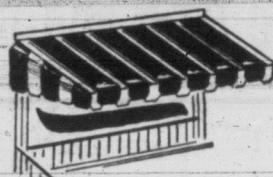

A charge of wilful damage laid against John F. H. Schoor, 2621 Blanshard, brought a fine of \$15 in city police court Saturday. He is also ordered to pay \$7.50 damages for pulling a telephone receiver from the wall of a Yates Street cafe Friday night. Police said he had been drinking.

DODGE TOWN-PANEL

Here's why
YOU'LL SAVE
with a

DODGE

NEW 1954 "JOB RATED" TRUCK

YOU'LL HAVE FASTER DELIVERY

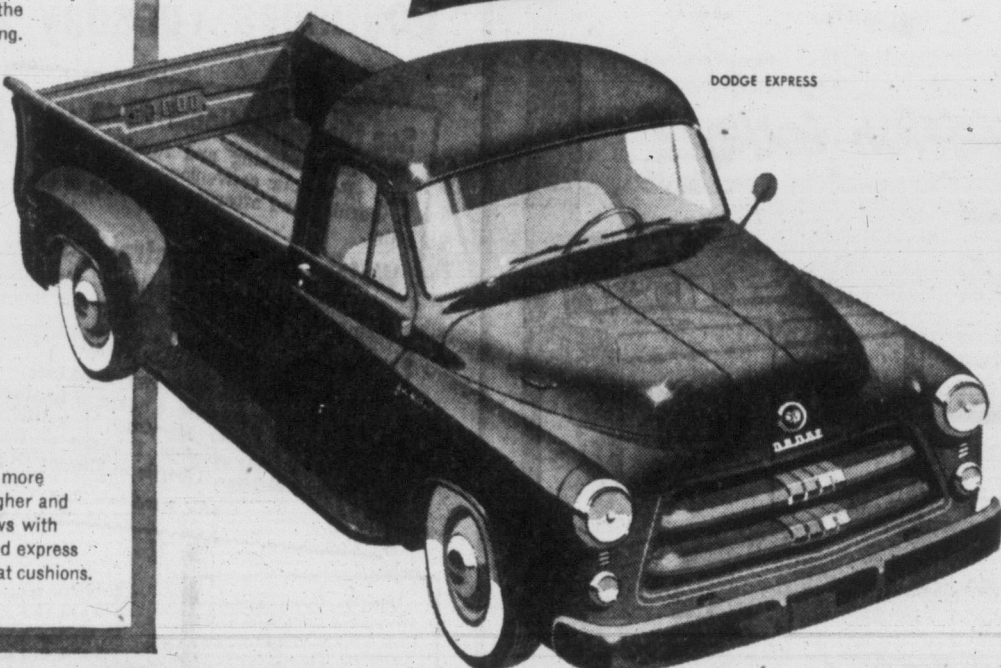

You'll like the loading ease of the new Dodge trucks—floors of these panel and express models are knee-level. You'll find wheeling through traffic and parking is a cinch—because Dodge trucks have the shortest turning radius, right or left, to speed up your hauling. Cab floors, too, are so much lower that drivers can slip in and out with passenger car ease. Further, Dodge trucks cut costs because they're "Job-Rated" from engine to rear axle to fit your job... and stay on your job with a minimum of upkeep.

YOU'LL CARRY MORE

The new Dodge Town Panel, illustrated above has a full 155 cu. ft. body capacity to handle bulky loads. Express bodies have extra width and depth. The Dodge "Job-Rated" truck design (which reduces truck weight by shortening wheelbase and overall truck length) gives a sizable payload advantage over trucks of similar Gross Vehicle Weight... you haul more at lower cost.

YOU'LL HAVE GREATER COMFORT

New Dodge cabs are designed to make driving safer and more comfortable. Floors and running boards are lower, doors higher and wider. The big, one-piece windshield and high side windows with lower sills give safe, wide angle vision. Dodge Truck cab and express models have 3-man seats, chair-high with full luxury-type seat cushions.

\$5,000 Reward Offered for Seattle Bandits

SEATTLE (AP)—Spurred by the promise of a \$5,000 reward, Pacific Northwest law enforcement agencies today widened their search for three gunmen sought for last week's robbery-murder at the Greenwood bank here.

At the same time, the Federal Bureau of Investigation, on orders from chief G-man J. Edgar Hoover, assigned top priority to the search for the trio of robbers who shot their way out of a police trap Friday, killing one police officer and wounding two others.

The reward was offered by the Seattle First National Bank, parent bank of the Greenwood institution. It will go to the person or persons providing information leading to the arrest and conviction of the gunmen.

Sabotage Suspected On Two RN Vessels

LONDON (AP).—Police are investigating damage to electric wiring aboard two British Navy ships—the submarine Turpin and the frigate Loch Lomond—the Admiralty said today. The damage was similar to that reported aboard more than a score of other British warships in the last year. In most cases the damage has been described as minor.

Island Groups Lauded By IOF Supreme Chief

Louis C. Probst Banquet Speaker

The "long and continuous record of service" of Victoria and Island groups of the Independent Order of Foresters was lauded by Supreme Chief Ranger, Louis C. Probst, at a banquet attended by 200 members in the Crystal Garden Saturday night.

Mr. Probst of Toronto is currently on a 42-day speaking tour of western Canada and the United States in connection with the order's 80th anniversary this year.

The origin of the Foresters dates back to the days of Robin Hood, Mr. Probst said, when a group of men banded themselves into a fraternity, the purpose being to render mutual aid to their fraternal brothers in time of need.

FOR ALL GOOD MEN—Hundreds of years after the founding of this fraternity, reorganizations were made and memberships became open to "all good men."

In 1874, the first court was established and since that time much outstanding work has been done for tuberculosis patients, cancer funds and old people.

The Island groups presented Mr. Probst with an Indian sweater from Cowichan, and Mrs. Probst with gold dogwood earrings and a dogwood brooch.

A musical interlude followed the banquet when James Fraser, R. Gleason and R. Stoffer entertained.

Mr. and Mrs. Probst left Sunday for Seattle.

Larsen Retains Title

JACKSONVILLE, Fla. (AP).—Art Larsen of San Leandro, Calif., successfully defended his Masters invitation tennis singles title Sunday by defeating Kurt Nielsen of Copenhagen 6-2, 6-1, 6-3.

Nielsen and Sven Davidson of Stockholm, beat Vic Seixas of Philadelphia, and Gardner Mulloy of Miami, 3-6, 6-3, 6-4, 6-8, 6-4 to win the doubles championship.

\$4,577 for Korea Rehabilitation Work Goal of 7th-Day Adventist Canvass in City

The annual Ingathering Appeal, to help support and extend worldwide welfare, health, educational and rehabilitation work has been launched by the Victoria Seventh-day Adventist Church, according to Pastor A. E. Hempel.

Rehabilitation work in Korea will come in for a large share of funds raised in this year's appeal, Pastor Hempel said. In Korea, Seventh-day Adventists operate war orphanages and hospitals which have been overflowing almost from the beginning of the Korea War, the pastor added. Throughout North America the Adventists are giving an offering toward Korean relief work with an objective of \$250,000 in a single day.

The Victoria church plans to reach its \$4,577 goal this year in four weeks through member and business firm contributions and door-to-door solicitation. The amount raised last year was \$3,690.71.

Last year's appeal in North America netted \$3,715,000, virtually all of which went directly

into humanitarian work, it is reported. Deductions for administrative expense was nil, since projects supported from elsewhere.

IMPORTANT NOTICE

Here is the truth about the new Hospital Insurance policy. Know the facts!

The new policy will mean that people in the low and medium income brackets will get full coverage without worrying about premium payments.

Premiums are abolished! The 2% is not new taxation, but replaces the high premiums which will be abolished. Financial experts estimate that a family of four earning \$260.00 per month will actually pay less than \$15.00 per year under the increased sales tax, a distinct saving of over \$24.00 per year.

THIS MEANS THAT THE GREAT MAJORITY OF PEOPLE IN BRITISH COLUMBIA WILL PAY LESS.

Remember, the same wide British Columbia Hospital Insurance Service benefits remain—and you CAN still claim your receipted hospital bill for income tax purposes.

A refund of unearned premiums will be made as soon as possible.

4 big reasons why you should buy... this amazing new BENDIX automatic washer

- 1 FULLY AUTOMATIC WASHING**
All you do is put in clothes, soap—set the dial—and walk away! Economat does the rest—washes, rinses, drains, vacuum dries—and shuts itself off automatically. Once you have washed the automatic Bendix way, you will never go back to old-fashioned hardwork washdays.
- 2 EXCLUSIVE ECONOMAT "MIRACLE AGITATOR"**
Gives you "agitator type" action in an automatic washer. Powerful undertow water action pulls soap, suds and clothes down into activated water. The new, dynamic shape of the exclusive Bendix Metaxoloy Wandertub eliminates "lazy water" areas. "Miracle Agitator" washes ALL fabrics safely and surely.
- 3 FLOATAWAY-FLUSHAWAY DRAINING NEVER LETS DIRTY WATER DRAIN BACK THROUGH CLEAN CLOTHES**
Your fresh-washed clothes stay clean because light soil rises to the top and is drained away down through the hollow center post of the agitator. Heavy soil settles beneath the agitator and is pumped away at the bottom. Simultaneous top and bottom draining never lets dirty water drain back through clean clothes!
- 4 EXCLUSIVE VACUUM-DRYING... REMOVES EXCESS WATER SAFELY**
No broken buttons! No pulled seams! No stretched or strained fabrics! With the amazing, Bendix patented vacuum-drying, excess water is removed gently, leaving no hard-to-iron, deep-set wrinkles.

Banish washday drudgery forever. Now enjoy the labour-saving convenience of Bendix fully automatic washing! No more heavy lifting, rinsing or wringing. Just put in your clothes—you never touch them again until they're washed, rinsed and vacuum-dried! And Bendix Automatic Washing can be yours for little more than the price of an old-fashioned "wringer type" washer!

BETWEEN TIMES

By MONTE ROBERTS

Monday mail call of readers to the rescue.

"Observer" caught me squarely in the middle of a double negative the other day. "Et tu, Brute!" he sneers. "It is easier to be critical than correct."

Agreed. But one of the advantages of being a columnist is, you can always pretend your grammatical boners were perpetrated on purpose.

And speaking of being critical, "E.J." pounced on this headline.

CABINET MAY LOSE SWEEPING POWERS
E.J. feels the cabinet's increased salary should enable it to afford janitor service.

In far off California R.S. and B.C. Forrester are also feeling a little critical—this time of a Winnipeg newspaper which remarked "Anna Russell is equal to, if not the peer, of..."

Also, they are critical of MY critical remarks anent non-Canadian accents—so much so, they have burst into rhyme.

We like your column, like your style,
Our leisure moments to beguile.
Your sole defect for us to date,
Is your preference shown of late
To "Talk Canadian," as you state.
Ugh, Monte, will you tolerate
The Winnipeg English I relate,
"Anna Russell, equal to if not the peer..."
It sounds to us a little queer.
Since peer is equal, equal peer.
Of such din language let's steer clear.
Change our accent if you will
But keep the English meaning still.

"J.A.L." of Oak Bay is constructive rather than critical. "Re your column on VON classes on baby care for expectant fathers," he writes, "I commend to your attention an advertisement in the male help wanted classified section the other day. It offered a job for an experienced infant's nurse."

"Seems these VON classes are bearing fruit."

In an obvious effort to sabotage Between Times for all time, "Occasional Reader" dares me to print his favorite verse.

Twenty little shad files
Were flying in a circle
The lead bug was Murgatroyd,
The tail bug, Merkle.
Now how I know which bug was first
And which was last, as stated,
Is simply 'cuz the speed of bugs
Is highly overrated.

Sorry, I never take a dare.

Dancers Mix Marriage, Careers

Marriage and careers mix very well in case of four dancers above, all members of National Ballet Company. They are, from left, David Adams, his wife, Lois Smith (best cook in the company); Jury Gotshalks, and his wife, Irene Apine.

Celia Franca, artistic director of company that will open three-day engagement at Royal Theatre tonight, finds favorite relaxation in rare free moments to be reading "whodunits."

George Crum, musical director of ballet company, today looked over scores for tonight's performance with Katharine Stewart.

REHEARSALS, HARD WORK AND SORE MUSCLES

Life in Ballet Not All Glamour

By DON INGHAM

All the glamour of the ballet is confined to the stage during performances, according to one of Canada's leading dancers.

"You should see one of our sleeping cars leaving a city after a show," said Celia Franca, vivid artistic director of the National Ballet Company, that will give the first of three performances tonight at the Royal Theatre.

"The heady perfume of liniment fills the car," she said. "Feet gradually poke into the aisle for massage by neighbors and the curtains members of the company are reading murder mysteries at a furious speed."

Relaxation is rare for Miss Franca, except on a train between shows. In a city she has a steady round of interviews, public appearances, and shows that take up most of her time.

"Some of the others find time for sightseeing," she said. "Here in Victoria I know a lot of the girls will spend all their spare time in the antique stores."

The graceful, ethereal artists who will appear on the stage tonight, Tuesday and Wednesday are in reality "kids with ravenous appetites," according to Miss Franca.

Scientific exercises, and a close attention to diet—heavy on the proteins—permit the dancers to eat well and stay in good physical trim.

She hopes to see government support of the company eventually.

"I do wish Canadians would hurry up a little with their appreciation of ballet," she said. "Too many of them feel that because we are Canadian, we cannot be top-flight. We are hoping the rave notices received on our tour of the United States might change that attitude."

RYVC FROSTBITE CREWS TRIM VANCOUVER RIVALS

Royal Victoria Yacht Club frostbite sailors chalked up a decisive victory over their Vancouver Yacht Club rivals in an inter-club series which ended here this week-end.

Final point score was: Victoria, 744; Vancouver, 606. Vancouver juniors retrieved some of the honors for the older members by defeating Victoria 147 to 117.

Races Saturday and Sunday were the second half of the inter-club winter series. Victoria established a lead during the first half, at Vancouver Feb. 27 and 28, and increased it this week-end.

Leading skipper was Jack Lindsay, Victoria, 112 points; Tim Heiberg, Victoria, 111; Peter Young, Victoria, 108; Ned Ashe, Victoria, 102; Rowley Ellison, Vancouver, 96; Bunny Whitcroft, Vancouver, 91.

Top junior skipper was D. Pennell, Vancouver.

Drug Carrier Suspect Bites Police Officer

Bus Patrons Watch Tussle in Arrest

A rough-and-tumble encounter between five police officers and a suspected drug carrier in a crowded city bus depot Saturday resulted in police court appearance today of James A. Ross, 40, Eastern Hotel.

An RCMP constable had his finger severely bitten in a struggle to arrest the suspect before any possible evidence could be swallowed.

The encounter was witnessed by waiting bus patrons.

Ross is charged with possession of drugs.

Three RCMP officers and two city detectives were waiting in the Vancouver Island Coach Lines depot on Courtney Street when Ross entered. One of the mounties threw him to the floor as he entered.

To counteract the first impulse of suspected drug traffickers to swallow evidence, the officer probed the man's mouth for any foreign object. It was then apparently that the officer was bitten.

Ross was remanded without bail being set by Magistrate H. C. Hall, as a prosecutor for the Crown had not yet been appointed. He is to reappear in court Tuesday, at which time defense counsel James J. Proudfoot said he will ask for bail.

Police Catch Joyrider Within Hour

A sailor and a city juvenile faced charges of taking cars without owners' consent today, following speedy police action Sunday night.

John Whitley Pegg, Belmont Park, was fined \$75 by Magistrate H. C. Hall after he pleaded guilty to taking a car owned by Cyril John Jarvis, 541 Hillside. Mrs. Jarvis reported the car missing at 7.50 p.m. A Saanich police officer stopped Pegg in the car on Burnside Avenue at about 9 p.m.

A naval officer gave evidence that Pegg was a hard worker and had not been in trouble with the police previously.

The juvenile was one of two arrested for dangerous driving following an alleged race on Douglas Street at 9.30 p.m.

Following the arrest it was discovered that one of the pair was driving a car owned by National Motors, without knowledge by the owners. Both are about 17.

Their cases were due to be heard in Juvenile Court.

LPP Calls for Union Work for Young Jobless

An unsigned brief by the National Federation of Labor Youth, an LPP (Communist) group, was presented to the provincial cabinet today demanding government action in the face of mounting unemployment.

"Members of the provincial Legislature can see to it that unemployed youth can be provided with jobs at trade union rates of pay," the brief said.

It advocated development of public works programs; pressure on the federal government to start a large scale public housing program; development of new industries for processing raw materials into finished goods, and sending trade missions to Commonwealth countries and "all others that will trade with us."

The brief also demanded that unemployed be able to draw unemployment insurance benefits even if the required number of contributory days had not been met.

Two Weeks' Sentence On Impaired Charge

A second conviction of driving while his abilities were impaired by alcohol brought a 14-day jail sentence to Roy Irwin Blake, Royal Oak Saturday.

Blake pleaded guilty to running into the rear of a car Friday night on Douglas Street and causing damages amounting to \$200.

The jail term followed his admission that he had been similarly convicted at Sidney in 1949.

He appeared in Saanich court before Magistrate H. C. Hall.

Trial of Chinese on Intent to Murder Charge First Spring Assizes Case

Robert "Tut" Davis, wounded by a shotgun blast last Nov. 8 on the Granville Street property of Edward Lore, Chinese, told Assize Court today:

"I heard a voice say: 'You white, get off my property or I'll shoot you.'"

"I ducked, and there was a blast, and blood gushed over my eyes."

Mr. Davis was introduced as a Crown witness in the case.

The case is continuing.

Jury chosen for the trial follows: J. C. Jensen, Colin Barwick, Richard Oliver, J. B. Olson, F. F. Proctor, T. H. Bishop, A. O. Ramsfield, J. H. Nott, J. H. Allison, Mervin Karst, B. F. Mirvine and Robert Stewart.

Davis told the court he went to Lore's home at the request of Diana Wilkins, whom he had known for a number of years.

LEGISLATURE SPEAKERS

At tonight's Legislature sitting, which starts at 8.30, Bruce Brown (Lib., Prince Rupert) and Vincent Segur (CCF, Revelstoke) will address the House.

Tentatively scheduled to speak Tuesday afternoon are Randolph Harding (CCF, Kaslo-Slocan) and Alexander Matthew (SC, Vancouver Centre), and at night, Landis and Forest Minister Robert Sommers and Rae Eddie (CCF, New Westminster).

SHIPS AND MEN

Dropped Propeller Cause for Holiday

BY MONTE ROBERTS

Round trip passengers on the current voyage of Royal Mail Lines' Ms. Loch Garth will get two weeks free "board and lodging"—because Holland America Lines' Ms. Dieuvendyk dropped a propeller in mid-Atlantic.

Both ships were in port here at the end of last week.

The reason Dieuvendyk's accident has affected Loch Garth is that the two steamship lines have co-ordinated schedules to give fortnightly service, U.K.-Pacific Northwest.

Loch Garth was held back to follow Dieuvendyk, although she was only a day behind, instead of two weeks, when the ships reached Victoria.

Loch Garth's round-trippers are happy about the circumstance which gives them an extra two weeks' cruising at no extra cost.

And Dieuvendyk's skipper, Capt. J. P. Dekker, is philosophical. "These things happen," he said, "and we weren't in danger at any time."

Capt. Dekker says Dieuvendyk was about 600 miles this side of the Azores when the tail shaft snapped and the propeller dropped off.

"It was 2 a.m. and a storm was blowing," he said. He wired the Azores, requesting aid from a powerful Dutch tug, Mv. Zwarte Zee, and in 30 minutes received the reply: "Tug on its way."

Fortunately, the weather moderated as they drifted helplessly, awaiting the tug. Passengers rigged hook and line for a rare chance at deep-sea fishing, and seemed to enjoy the delay. Didn't catch any fish, though.

Two days later, the tug picked up her tow, and began the long haul, 2,100 miles to Newport News for repairs.

Here shipwrights cut through the bottom plates of the ship so they could get out the spare tail shaft without unloading the cargo stowed atop it.

Repairs were affected handily, but total lost time amounted to more than three weeks.

The new trend in deep-sea passenger liners is evidenced by Cunard Line's Ms. Saxonia, pencilled in for her maiden voyage out of Liverpool for Quebec and Montreal September 2.

Luxury accommodation is being built in for 125 first-class passengers—and only slightly less luxurious quarters for 800 tourist class passengers—a reversal of the trend in early trans-Atlantic liners.

The far larger proportion of space in the ship will be devoted to tourist cabins and public rooms, including dance floor, garden lounge, drawing room, library, games and sports area, cocktail bar, children's playground and kiddies' movie theatre.

Capital Travel Service reports a prominent Victoria ecclesiastic has made the first local booking for the return voyage to England.

Shipping men here point to the success of RMS Oronsay's experimental voyage, Antipodes-B.C., as evidence that Pacific passenger business isn't dead.

The regularly scheduled call at San Francisco is given as one reason why Oronsay is paying its way, where Aorangi was operated at a loss.

Oronsay's owners, Orient Lines, are so pleased with initial success that a fourth round trip is scheduled this year, instead of the three tentatively planned.

However, Victoria will still be passed up as a port of call.

Two Girls Hurt In Car Smash On East Road

Two 16-year-old girls were injured in a Sunday smash when a car loaded with teenagers went out of control and turned over on East Saanich Road near Sidney at about 1.30 a.m.

In fair condition at Jubilee Hospital is Joan Ramsden, 3112 Irma, with severe cuts to foot and leg.

Margaret Mosychyn, also of Victoria, is in good condition at St. Joseph's with a possible broken collar bone.

Sidney, RCMP said the driver of the car, Marie Carlow, address unknown, received bruises. Three boys in the car were unhurt.

ASK THE TIMES

Q.—I have been informed by one person that aluminum is an element while aluminum is an alloy of aluminum and 5% some other metal. Someone else said it is just the pronunciation. Will you please set me right on this?—T.W.

A.—The New Standard Dictionary (Funk and Wagnalls) says this substance is a light silvery-white malleable and ductile metallic element. Regarding the spelling: "As between the forms aluminum and aluminium there is great diversity of usage but aluminum appears to be the form now preferred by manufacturers and chemists. The spelling followed by the United States Dispensary and the United States Pharmacopoeia is aluminum."

Q.—To whom may I write for information about the Victoria Optimist Club?—O.P.

A.—It meets every Thursday at noon in the Pacific Club. Sharing in its boys' work activities is a harmonious group of 45 members. Club president is Fred G. Tanner of the Victoria Photo Supply and its secretary is T. S. Price of Price and Smith.

Anyone wishing a question answered is invited to send the problem along to The Times, addressed to "Ask The Times" Editor. Questions and answers will be published daily. All questions should deal with matters of fact and be of general interest. The Times does not undertake to solve conundrums.

KNITTING, SEWING

New Auxiliary Assists Family, Children Service

Grass seed for Sunshine Camp, flannelette for crib sheets and children's garments, wool for knitted garments, a Thanksgiving turkey, Christmas treats and gifts for children in foster homes were all purchased during the year, reported recording secretary Mrs. Lloyd Bassett at second annual meeting of the Women's Auxiliary to Family and Children's Service.

Three money-making projects were sponsored, a spring riddito as part of Garden Festival Week, a rummage sale and a Festival of Christmas decorations.

The auxiliary has 69 active members and 30 associate members.

Fifty knitted garments have been turned in to the F and CS, it was reported by Mrs. R. Ferguson, including baby jackets, baby bonnets, booties, socks, boys' heavy sweaters and sleeveless sweaters and socks. Cost of wool amounted to \$47. Knitting was done by members and friends of the group.

Mrs. Vernon Ridgway, chairman of sewing, reported 21 dozen diapers, 18 pairs of boys and girls' pajamas and 20 pairs of flannelette pants and four and one-half dozen crib sheets made by her group during the year. The linen from Sunshine Camp was repaired.

The car committee, with Mrs. J. Alexander, chairman, was called upon to assist 28 times during the year.

Mrs. J. DeBourcier told of collecting old woollens which were shipped to a knitting mill in Vancouver, resulting in the return of 28 blankets suitable for foster homes. The auxiliary has at present 400 pounds at the mill to be made into blankets.

Mrs. DeBourcier also reported on the emergency helpers com-

mittee formed to assist the social workers.

Other reports were given by Mrs. A. A. Blyth, foster home purchasing; Mrs. S. Black, publicity; Mrs. R. R. Wilde, treasurer.

Members of the board of directors, D. E. Woodsworth, Charles Davis and Dr. Lloyd McEwen were present, and spoke briefly.

Mrs. E. C. Wintermute, chairman of nominations, announced the following officers, all of whom were elected by acclamation: President, Miss Elizabeth Forbes; first vice-president, Mrs. J. DeBourcier; second, Mrs. Vernon Ridgway; recording secretary, Mrs. Douglas Hunter; corresponding, Mrs. R. S. Smith; treasurer, Mrs. R. R. Wilde.

Mrs. J. Ferguson will be chairman of knitting; Mrs. DeBourcier, collecting old woollens; Mrs. E. Revercomb, sewing; Mrs. W. Sturrock, telephone; Mrs. J. Alexander, cars; Mrs. Arthur Ash, foster home buying; Mrs. Arthur Poyntz, emergency helpers; Mrs. S. Black, publicity; and Mrs. E. C. Wintermute, membership.

Mrs. Donald, McAdie was named honorary president and Mrs. R. D. Harvey is immediate past-president.

Conveners — At meeting of Navy League Chapter, IOOE, the regent, Mrs. F. W. Mawdsley, named the following conveners: Services at home and abroad, Mrs. T. C. Davies; hospital, Mrs. N. Ollerenshaw; welfare, Mrs. F. Nobbs; Empire and world affairs, Mrs. R. J. Shanks; national Commonwealth and Empire, Mrs. A. W. Litter; films, Mrs. A. Stone; press, Mrs. C. E. B. Rea. It was reported a box of clothing is being packed for the children at Moberley Lake School and that hospital nursery bags will be started. Plans were made for a game afternoon on March 25.

"Where Smart Women Prefer to Shop"

Mr. and Mrs. Ron Edwards Married in First United

A double-ring ceremony in First United Church, Saturday evening, united in marriage Lorraine Patricia Moore, daughter of Capt. and Mrs. J. E. Moore, 2741 Fifth Street, with Ronald Edwards, son of Mr. and Mrs. Stan Edwards, 827 Craigflower Road.

Rev. Molt A. J. Waters performed the ceremony. Mrs. J. Roberto Wood played "Because" during the signing of the register.

The attractive bride, whose father gave her in marriage, wore a gown styled with strapless bodice of chantilly lace and skirt of nylon tulle over satin. Her lace jacket had an Elizabethan collar and lily-point sleeves.

Her chapel veil misted from a lace cap sprinkled with rhinestones, and her only jewelry was the groom's gift of pearl earrings. A white orchid centred her cascade bouquet of red roses and white carnations.

Mauve nylon over taffeta styled the gown chosen by Mrs. Dorothy Gallop, matron of honor. Bridesmaids were Miss Belle Luscombe, gownned in midnight blue, and Miss Eileen Spokely, in turquoise blue. Pink broadcloth taffeta was worn by little Karen Dunaway, flower girl.

All the attendants had tulle headdresses touched with rhinestones, and carried bouquets of yellow carnations centred with single roses.

Mr. Ken Wilkins was best man, and ushers were Mr. Joe Moore, brother of the bride, and Mr. Al Duffus.

A reception was held at Loughheed's Banquet Club, where Mr. J. R. M. Donaldson proposed the toast: White tulips and lilies decorated the bride's table, which was centred with a three-tier wedding cake with a silver vase of pinocchio roses on top.

After a honeymoon motoring on the Mainland and in the States, the newlyweds will reside here. The bride traveled in a blue worsted suit, pink flowered hat, pink blouse and gloves, and blue suede purse and shoes.

Canadian Cheddar—Lenten Choice

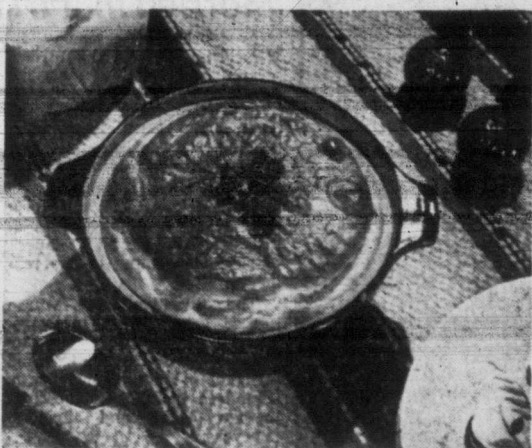

Canadian cheddar, known around the world for its high quality, and famous for its flavor, really comes to the fore in Lenten days. Cheese, as we all know, is a mighty fine source of protein, and more than fills the gap when meatless meals are the order of the day. In fact, pound for pound, Canadian cheddar cheese gives you the same top-notch protein found in meat, but at a substantial saving. Perhaps even more in its favor is the fact that there's so much down-to-earth eating in dishes made with it.

Just to show you what we mean, we present for you two very different kinds of cheese dishes—a soup and a main dish (soufflé). Try one, try both—and we think you'll be overwhelmed. The soufflé, of course, will be elegant during Lent and plenty often afterwards. It's an easier-than-usual soufflé, believe it or not. No sauce is made up first—just a simple blending of canned soup and shredded cheese. Beaten egg yolks are added, and whites folded in, and the oven does the rest. Take it from the "cooker" and you'll have a puffy flavorful casserole of goodness to serve triumphantly to everybody at your table. With a variety of canned soups at your command, you'll be able to serve a different flavored soufflé every time.

CHEESE-ASPARAGUS SOUFFLE

One (10-ounce) can condensed cream of asparagus soup; ½ cup grated old Canadian cheddar cheese (about ¼ pound); 4 eggs, separated.

Heat soup and cheese in double boiler, stirring until

Puffy and golden, a soufflé easier than usual to make. Canadian Cheddar Cheese and canned soup team up for flavor, beaten eggs give it its "delicate air."

cheese melts. Add beaten egg yolks to soup and cheese mixture and cool slightly. Fold in stiffly beaten moderately hot oven (375 F.) for 20 to 25 minutes. (Makes 5 servings).

ROYAL CHEESE SOUP

You can "beware the Ides of March" in a twinkling when you serve bowls of steaming-good cheese soup. Easy to make in the double boiler, you'll want to tab this recipe for repeat orders.

Four medium-size potatoes (cooked); 1 small onion (cooked with potatoes); 2 tablespoons butter; 2 tablespoons flour; 2 cups milk; 1 cup grated Canadian cheddar cheese. 2 cups left-over potato water; ¼ teaspoon salt; ¼ teaspoon paprika; ½ teaspoon pepper; ½ teaspoon Worcestershire sauce; 1 teaspoon chopped parsley.

Remove onion and mash potatoes (should be 2 cups). Blend butter and flour together in the top of a double boiler, add milk gradually and cook until thickened, stirring constantly. Keep over boiling water. Chop onion coarsely, add with cheese to milk mixture. Stir until cheese is melted. Add potatoes, potato water and seasonings. Serve hot, garnished with parsley. (Makes 6 servings).

TODAY'S RECIPE

OLIVE VEGETABLE PIE

Three-quarters cup ripe olives, 2 tablespoons butter or margarine, 1½ tablespoons flour, 1½ cups milk, ¼ teaspoon salt, ¼ teaspoon paprika, ¼ teaspoon pepper, ¼ cup minced onion, 1 cup cooked cubed carrots, 1 cup cooked cubed potatoes, 1 cup cooked peas, 1 cup coarsely cut celery, 2 tablespoons minced parsley. Pastry for top (basis 1 cup flour).

Cut olives from pits into large pieces. Melt butter and blend in flour. Add milk, salt, paprika and pepper, and cook and stir until thick and smooth. Add vegetables, parsley and olives. Pour into a greased casserole or baking dish and cover with pastry. Bake in hot oven (400 degrees F.) about 25 minutes or until crust is well browned. Serves four to six.

TWICE AS MUCH COFFEE
for your money?

Let's figure it out together:

It takes about 2½ pounds of roaster-fresh coffee to make as many cups as a giant, economy size jar of Borden's Instant Coffee.

2½ pounds of ground coffee cost you about \$3.00 these days.

BUT...

You can buy the same amount of roaster-fresh flavor...

The same number of steaming cups of coffee for at least \$1.25 less!

Yes, you save at least \$1.25 when you buy the giant size jar of Borden's Instant! You get almost twice as much coffee for your money.

WHAT'S MORE...

Borden's is the richest Instant of them all!

Each spoonful of Borden's Instant contains 33% more flavor than any other leading Instant.

Try Borden's Instant! Compare it! You'll never go back to ground coffee... or to another instant!

WITH THE ARMED FORCES

New Reserve Unit for Trained Soldiers, Overseas Vets
BY ROY THORSEN
Something new has been added to the makeup of the Canadian Army, of interest to many Vancouver Island veterans.
There is a branch now called the Regular Reserve—separate from the Canadian Army Reserve Force. Abbreviations now read: CA(AF), CA(RF), CA(RR).
The Regular Reserve is open to men who:
(a.) Have completed an engagement with the CA(AF), or have been released following an overseas tour of duty;
(b.) Do not wish to re-engage for full-time service; and
(c.) Are willing and medically fit to serve in the CA(RR).
Enrollment can be secured if applicants are acceptable "and that not more than two years have elapsed since their release from the active force," according to the Adjutant-General's instruction.
Purpose of the plan is to create a trained reserve that will be on call at a moment's notice for action should hostilities break out. It is like an ACTIVE RESERVE.
Men enroll for a three-year period and, if suitable, can sign for another three. They hold the same rank as on release from the CA(AF). There is no promotion in the regular reserve.
Each will be regarded as a reservist of his former corps and, in the case of RCAF and RCIC personnel, reservists of their former regiment.
Members of the regular reserve will be paid an annual retaining grant of \$100 upon completion of one year's service, provided they attend the annual training period.

ASTROLOGICAL FORECAST

TUESDAY, MARCH 16, 1954

ARIES (March 21 to April 19)—You're getting your appearance more radiant, and beauty or baby shop, then looking to investments, creative ideas, bring good results to be followed by happy evening with attractive attachments.

TAURUS (April 20 to May 20)—Use today's good aspects to make lots of changes at home than can bring more harmony, understanding in that important realm of your activities; take home thoughtful presents to all.

GEMINI (May 21 to June 21)—Dashing about visiting relatives, neighbors, business associates in hours when possible, shopping, getting in supplies, doing your chosen chores with excitement, brings big returns NOW.

CANCER (June 22 to July 21)—This is your day to expand your consciousness to better, bigger ways to increase your current income, make a budget for future which will allow more benefits, too. Fix property to enhance its value.

LEO (July 22 to August 21)—Be just as personal as you like today; you exude your magnetism, which causes others to aid you in making successful your most generous, magnanimous desires; support loved ones in their viewpoints.

VIRGO (August 22 to September 22)—Getting together with all friends, ardent admirers, soft-pedalling any criticism you feel toward them gives you clear insight into their good points, which results in joint undertakings quickly following.

IF YOUR CHILD IS BORN TUESDAY...
Tuesday's child is one of those very delightful youngsters who will exude charm and almost everyone will want to do favors or extend courtesies to him, so it's necessary to teach early that only what is truly earned by one's own efforts is appreciated and used to fullest advantage; otherwise, there will be too great a temptation to "sit down" and let others do the work. Fine chart for any public work or professions that bring public applause or acclaim, since praise is an essential for your progeny if the best in this chart is to be brought out.

Carroll Righter's Individual 16-page Astrological Forecast for April is now ready for your copy sent 25c with stamped self-addressed card. For more information, write to: Carroll Righter, 3033 San Francisco, California.

SIDE GLANCES
By GALBRAITH

"Get this straight now, men—only two bases on a broken window!"

TUESDAY, MARCH 16, 1954

LIBRA (September 23 to October 23)—Take time out to think over your long-time ambitions, those individuals who have inspired you to greater efforts, more lofty principles, deeds in past; then revive faith by again living such precepts.

SCORPIO (October 23 to November 21)—Now you have fine day to look over all in authority with whom you come in contact, study how you can make them appreciate your understanding of their problems, so they support your public, career aims.

SAGITTARIUS (November 22 to December 21)—Looking for better outlets for expression in your newspaper, radio, TV programs, trade journals, magazines results in fine suggestions from all; make new acquaintances of importance as well.

CAPRICORN (December 22 to January 20)—Getting together with both romantic and material companions brings answers to any joint concerns that have seemed riddles in past; be frank and accept their replies as equally honest.

AQUARIUS (January 21 to February 19)—Try to see as many large-viewed personalities as you can; talk out any marital or partnership problems in truly generous, cooperative spirit; then you make big headway today.

PISCES (February 20 to March 20)—Making your surroundings more attractive by art objects or other charming articles or furnishings is added proof to loved ones, co-workers or your affection for devotion to them.

Death Strikes Barlow Family Twice in Week

Cremation Today For Mariner, Wife

Death struck a husband and wife a week apart and this afternoon in Royal Oak Burial Park their bodies were cremated together.

Capt. William Barlow, 70, retired master mariner of 1795 Ash Road, died March 6. His 59-year-old wife, Harriet, died March 13, also in St. Joseph's Hospital. They had resided in Victoria since 1912.

Her death came only a few hours before her husband's funeral services. Canon George E. Biddle officiating in Hayward's chapel Saturday afternoon.

Canon Biddle also officiated at rites this afternoon for Mrs. Barlow.

They are survived by three sons, Clifford, Trevor and Glen, all of Victoria. Miss Ruth Newton, Victoria, is a sister of Mrs. Barlow.

Home Backyard Stressed in New Playlot Contest

A joint committee of the Greater Victoria Recreation Council and the District Council of the PTA will be formed to organize a home playlot contest.

Idea of the scheme is to interest parents in every neighborhood in providing backyard recreation facilities to keep small children off the streets.

The contest will be scheduled for May and June.

ROME'S SOCIETY STARTLED

Sex Trial Marquis Says He Will Name 'Friends'

ROME (Reuters)—The Marquis Ugo Montagna, branded by police during Rome's "drug orgy" trial as a "procureur of women for highly-placed persons," lashed back Sunday by publishing a list of his "friends" including police officers.

He startled society by threatening to disclose more of his "friends" if the police reveal any more of his past and present.

A police report read to the court last Wednesday during the seditious trial of the young neo-Fascist journalist Silvano Muto described Montagna as a Fascist and Nazi spy, a procurer of women, a black marketer, a speculator in real estate, and an "influence peddler."

The eighth hearing of Muto's trial opens today. Muto wrote that police had been "induced" to drop the investigation of the death of Wilma Montesi, 23-year-old Roman woman who Muto claims died of an overdose of drugs at one of the "orgies" at Montagna's lodge outside Rome.

OFFERS TO RESIGN

Italy's police chief, Tommaso Pavone, already has resigned because he was named in court as a "friend" of the marquis.

B.C. Woman Killed While Awaiting Bus

VANCOUVER (CP)—Mrs. Gertrude Froese, about 45, of Vancouver was killed Saturday night when struck by an automobile in the suburban Lulu Island district.

Mrs. Froese and her husband, Hans, 51, were waiting for a bus when struck by a car that swerved to avoid another vehicle. Hospital authorities reported Mr. Froese's condition as fair. Police identified the driver as Henry Perog of Lulu Island. No charge has been laid against him.

Russian Voters Return Kremlin Candidates

MOSCOW (AP)—The Soviet Union had a new parliament—the supreme Soviet—today. The government said returns from the national elections Sunday "show that the Soviet people voted unanimously for candidates of the Communist and non-party bloc."

These were the only candidates on the ballots to fill the 1,331 seats in the two chambers—the Council of Nationalities and the Council of the Union.

Approximately 110,000,000 persons were eligible to vote. Formal results—what percentage of the electorate voted and "endorsed the candidates and the program of the Communist party"—will probably be announced Tuesday.

Jordan Protests Attack by Israelis

JENIN (UP)—An Israeli force penetrated about four miles into Jordan today and attacked the Yabod police station near Jenin with automatic weapons and bombs, Jordan authorities charged.

Reports said the Israelis failed to get into the state but killed two Arabs while retreating to Israel.

Jordan observers are investigating the incident and an emergency meeting of the UN armistice commission has been demanded.

The Boys Still Like Those Nice Red Lips

HALIFAX (CP)—A battery of green-lipped co-eds went down fighting Saturday in a move to have the Maritime university students parliament ban lipstick "simply and solely because it is red."

The girls daubed on green lipstick to strengthen their argument that a blonde, for instance, can encourage male glances to a greater degree with green lips than she can with red "or even the milder shades of pink."

Horrorified men students crushed the revolt 20-18.

BURNS CLUB LADIES' NIGHT

"Women in the Life of Burns" will be the theme of the annual ladies' night celebration of the Victoria Burns Club at the Business and Professional Women's Clubrooms next Tuesday evening. Songs and recitations will be given by various members and guests on that theme.

False Teeth Often Have a Certain Odor!

Soak your plates in Polident daily to avoid "Denture Breath"

Polident is the specially designed cleanser that keeps false teeth—and breath—clean and fresh always. Follow these simple rules:

1. Never use a brush on them! Your denture plates are much softer than natural teeth. Brushing wears down fitting ridges so they get loose.
2. Never use soap or toothpaste! They can leave film which collects bacteria and food particles, a major cause of offensive "Denture Breath."
3. Use a soaking-type cleanser made for false teeth only... Polident! Polident is the denture cleanser recommended by more dentists than any other. No brushing, no handling of soapy plates that can slip and break. Polident gets where a brush can't reach. Best of all, Polident always leaves false teeth odor free. Get the world's largest selling denture cleanser, Polident, at your drug counter.

'Canada' Fire Blamed on Cigarette

LIVERPOOL, Eng. (Reuters)—A cigarette butt probably caused the fire which gutted the 20,000-ton Canadian Pacific liner, Empress of Canada here in January, 1953, says a court of inquiry report issued Saturday.

The liner keeled over and sank after fire had raged in her for hours. Nine days ago she was pulled back to an almost even keel after lying on her side for 15 months. She shortly will be scrapped.

Discussing fire-fighting arrangements which had been in effect aboard the ship before the blaze, the report said: "The treatment of this important matter by the chief officer and the assistant chief engineer appears to have been casual in the extreme."

'New Look'—For U.S. or NATO? Pearson Questions Dulles Policy

PRINCESS MARGARET SMOKING CHEROOTS, SAYS COLUMNIST

LONDON (Reuters)—A London newspaper columnist claimed Sunday that Princess Margaret smokes the occasional cheroot these days.
The princess, long a cigarette smoker, smokes the baby cigars only in private, he said.
The columnist, Ephraim Hardcastle, writing in the Sunday Express, predicted the princess would set a new vogue in London society.
"I saw two smart young ladies elegantly smoking cheroots at parties last week," he wrote.

Ike Will Propose Tariff Reductions

Announcement Comes on Eve of Conference
Between Canadian and U.S. Ministers

WASHINGTON (CP)—Despite opposition in some Republican quarters, President Eisenhower has decided on a program of tariff cuts and his proposals will be placed before Congress within the next two weeks, diplomatic officials disclosed today.

At the same time he will ask Congress to extend the U.S. Reciprocal Trade Agreements Act, which expires next June, for another three years, thus paving the way for a possible fourth postwar round of tariff bargaining early next year.

Parts of the still-secret program will be unveiled for a confidential preview at Tuesday's meeting of senior Canadian and American cabinet ministers.

The eight ministers, including U.S. State Secretary Dulles and Canada's External Affairs Minister Pearson and Trade Minister Howe, will meet at the first formal conference of the Canada-U.S. economic and trade committee.

Other members will be Agriculture Minister Gardiner and Finance Minister Abbott of Canada and U.S. Treasury Secretary Humphrey, Commerce Secretary Weeks and Agriculture Secretary Benson.

ASK COMMENT
The big issues at the moment are American tariffs and U.S. programs to dispose of a portion of huge stockpiles of food which threaten to clog world markets and reduce established prices.
Informants said Canadian ministers will be asked at the

Safecrackers Strike Again In Vancouver

VANCOUVER (CP)—Safecrackers kept up their hard-hitting tempo here during the week-end by hammering open two more safes and trying to pry their way into two more.

Police statistics last week showed that safecrackings in the city are already running 400 per cent ahead of the 1953 pace.

Victims of the week-end raids were West Coast Hardware Co., where loot amounted to about \$50; Vancouver Equipment Corp., petty cash; and New Veterans' Branch, Canadian Legion, a failure for yeggs; and Overwaitea Ltd., where a burglar alarm chased them away.

WASHINGTON (CP)—External Affairs Minister Pearson appealed to the United States today to reject "entrenched continentalism" as a concept of defense against world Communism.

He warned that Canadian-American relations will be threatened if the U.S. reverts to a policy of defense narrower than that of the North Atlantic Pact.

"The stakes now are higher than ever, and the necessity for co-operation and consultation greater than ever," he said in a speech prepared for the National Press Club.

"It is essential that we work together in any new defense policy—as we have already been working together—if the great coalition which we have formed for peace is not to be replaced by an entrenched continentalism."

This narrow defense concept, under which presumably the U.S. would choose its own time, place and means of retaliating against a Red attack, "makes no great appeal to your northern neighbor as the best way to prevent war or defeat aggression," Pearson said.

BULWARK AGAINST REDS
He made his appeal for continued support of a strong, unified North Atlantic community as the basic bulwark against communism in referring to the Jan. 12 defense speech of U.S. State Secretary Dulles.

Dulles' address—described by Pearson as "one which may turn out to be one of the most important of our times"—outlined a new U.S. defense policy based on a Washington decision "to depend principally upon a great capacity to retaliate, instantly by means, and at places of our own choosing."

"The key words in this sentence are 'instantly,' 'means' and 'our,'" Pearson said.
"From our point of view, it is important that the 'our' in the sentence I have quoted, means those who have agreed together, particularly in NATO, to work together and by collective action to prevent war or, if that should fail, to win."

EXPLOSIVE EFFECT
The new American defense policy, Pearson said, makes diplomacy not less but even more important, especially when nations contemplate the "means, including atomic," that may have to be used, the occasions when they should be used, and their effect—explosive possibly in more respects than one.

As the Canadian minister saw it, diplomacy consists of two things—persistent and patient effort to settle differences "with those whom we rightly fear"; and even more important, the search for agreement between friends on policies, tactics and timing, "so that 'our choosing' will mean an agreed collective decision, without prejudicing speedy and effective action in an emergency."

Power Board Members Await Successors

Bennett Seeks Best
'Men for Jobs'

By TONY DICKASON

The three members of B.C. Power Commission were at work today despite the fact Premier Bennett announced Friday in the Legislature their resignations were accepted following a Royal Commission report charging the board with negligence.

It was not simply a question of submitting resignations and walking out, a commission spokesman said. Members likely will stay on until the government makes new appointments.

Resignations of Samuel R. Weston, chairman, and commissioners Gen. W. W. Foster and Forrest L. Shaw, together with Alfred William Lash, chief engineer, were received by the government after the Royal Commission negligence charge.

When Mr. Weston was appointed in 1945 his salary was \$10,000 and commissioners received \$8,000 yearly. Salary increases which may have followed since have not been revealed.

Premier Bennett has said the government is seeking "the very best men available" for the jobs, and early appointments are expected.

He did not indicate whether the positions would be filled by B.C. men or if the government is also looking elsewhere in Canada for replacements.

It is known that top-flight engineers are hard to find. With industry booming throughout Canada plus recent huge hydro developments—particularly in Ontario and Quebec, most of the men with technical know-how are already employed.

With the exception of Newfoundland and Prince Edward Island, every province has some type of power commission operating. Oldest of them all is the Ontario Hydro Electric Power Commission, established in 1906, which serves close to 1,000 municipalities.

TCA Profit \$256,230; Sharply Below Last Year

OTTAWA (BUP)—Trans-Canada Airlines today reported a net surplus of \$256,230 on a record volume of business during 1953.

The government-owned airline's annual report was tabled in the Commons by Trade Minister C. D. Howe, through whom the department reports to Parliament.

The surplus was sharply below that of the previous year, but the line paid corporation taxes for the first time in 1953. These amounted to \$300,000 and there was no compensating income, the report by TCA president G. R. McGregor said.

While operating revenues increased 13 per cent to a total of \$62,236,564, operating expenses climbed 16 per cent to \$61,433,700.

The report showed that TCA carried 1,307,810 passengers during the year, a gain of 15 per cent, and that passenger revenue amounted to \$18,242,942. Revenue from mail amounted to \$7,786,119; an increase of one per cent while the volume of mail carried climbed 11 per cent. Air express and freight revenues totalled \$3,673,440, an increase of nine per cent. The commodity ton-mileage went up 12 per cent.

Higher wages to company employees were reflected in the total payroll of \$3,605,892. At the end of the year the company had 7,072 employees.

OTTAWA (CP)—Gordon Churchill, 53, of Winnipeg, announced today he will stand as a candidate for the presidency of the Progressive Conservative Association of Canada.

Mr. Churchill, a PC Member of Parliament for Winnipeg South-Centre, claimed the support of a majority of the party's 40 MPs.

His announcement assures a contest for the presidency, which will be decided Tuesday. George Hees, 43-year-old MP for Toronto Broadview, already has announced he will stand.

Mr. Churchill announced his candidature in a letter to George Nowlan of Wolfville, N.S., who is retiring as president after four years in office. Nowlan is MP for Digby-Annapolis-Kings.

PILOT USES PERISCOPE

Plane Zooms Straight Up, Comes Down on Its Tail

WASHINGTON (AP)—The United States Navy is giving the public a guarded look at two new airplanes that take off vertically and back down, tail first, for landings.

Navy sources said photographs, but little information as to capability and construction, will be released Wednesday.

The planes, known as "VTO Fighters" for their vertical take-off characteristics, have been built by Consolidated Vultee Aircraft Company, Convair, San Diego, and Lockheed Aircraft Co., Burbank, Calif.

Persons who have had an advance look at the Convair model, the FYI, reported that it stands entirely vertical for take off and landing.

The pilot sits with his back to the ground, feet upward, at the moment of take-off or landing, and apparently has a periscope or a rear-view mirror arrangement to watch the field.

IWA Will Not Seek General Wage Hike

West Coast Woodworkers to Negotiate Fringe Benefits in New Contract Bargaining April 15

VANCOUVER (BUP)—International Woodworkers' Union president Joe Morris announced today the union will by-pass wage increase demands when bargaining for 1954 contract renewals with west coast lumber operators April 15.

The decision to withhold pay demands came following a week-end conference here by 90 delegates of the 12 British Columbia IWA locals.

In bargaining talks with Forest Industrial Relations and independent operators the IWA will present eight proposals and will conform to the contract conditions now accepted generally in major B.C. industries.

PROPOSALS
The eight proposals:
Payment of wages on six statutory holidays in addition to the present three.

Full union security with close co-operation between management and labor.

A provision to enable the union to negotiate an agreed-upon procedure to cover work rates. Chief Justice Sloan ruled that negotiating rights for wage payments of these workers were not provided for under terms of the existing agreement.

Retention of seniority rights during any layoff period following a temporary reduction of the working force.

Payment of wages at the rate of time and one-half on Sundays for watchmen, boatmen and plant guards.

A job analysis program for the industry to be made jointly by management and labor.

Employer-paid medical services for all workers.

Assumption by the operators of the cost of transportation from the point of hiring to the job.

Red Cross Donations Total 37% of Quota
A noon total of \$27,202 was announced by Red Cross campaign offices today. The figure represents over 37 per cent of the \$72,000 quota which 800 volunteer canvassers are striving to collect by the end of the month. Officials are optimistic of success.

French Also Hard Hit In Heaviest Fight of War

By LARRY ALLEN

HANOI, Indo-China (AP)—Communist-led Vietminh troops drove toward the heart of the big French Union fortress of Dien Bien Phu tonight after seizing a strong point to the north. They lost 1,500 killed in furious fighting.

The savage rebel onslaught gained ground despite French reinforcements dropped by parachute to help the hard-hit defenders of the last French Union outpost in northwest Indo-China. Dien Bien Phu is 175 miles from Hanoi.

The Vietminh attack on the besieged fortress began Saturday night but the defenders held them off throughout Sunday. But today the rebels threw in thousands more troops.

The rebels bombarded the dust bowl fortress with artillery shells before they launched their new series of attack.

As the violent battle rounded out its second day, the French high command in Saigon announced that a battalion of French and Viet Namese paratroopers had jumped onto the

Dien Bien Phu airstrip to reinforce the French union garrison. Other reinforcements were air-lifted from Hanoi.

The French high command in Saigon said the French union forces had the "situation well in hand" and were holding solidly against the "very violent" rebel attack.

A French spokesman predicted the fighting would last several days.

"A three-hour cease-fire interrupted the fighting Sunday morning while both rebels and French carried their dead and wounded from the battlefield.

The French claimed at least 1,000 rebels killed in the initial assault Saturday night and early Sunday, and admitted their own losses were "appreciable."

The fighting was described as the most savage yet in the seven-year-old Indo-China war.

The Vietminh encircled the fortress, entrenching from 36,000 to 41,000 troops in the surrounding hills. More than 100,000 coolies packed in supplies—mostly from Communist China—over mountain trails.

Late Saturday afternoon the rebels lunged out of the hills by the thousands, cascading against the acres of barbed-wire barricades ringing Dien Bien Phu.

The screaming infantry fired rifles, pistols, sub-machine guns and hurled bamboo spears as they closed in for hand-to-hand fighting.

The legions of Communist leader Ho Chi Minh appeared making an all-out effort to give the French a major setback before the Big Four and Communist China meet in Geneva.

After Vice-President Nixon's speech Saturday night, with its passages obviously directed at McCarthy, the feeling spread that a showdown must come soon.

Nixon said "reckless talk and questionable methods" in fighting Communism played into the hands of administration opponents and that the administration insists procedures used both in the executive and legislative branches must be fair and proper.
